What Are Online, Hybrid and Web-enhanced Classes?

• **Online** classes are taken exclusively over the Internet; there are no on campus meetings required. However, some online classes require proctored exams, either on an RCCD campus or by an off-site proctor approved by the instructor.

• **Hybrid** classes meet both on campus and online; think of them as traditional face-to-face classes where some of the on-campus class meetings are replaced with online assignments. In a hybrid class, you will attend meetings on campus during the dates and times listed in the schedule. Since the on-campus portion of hybrid classes could take place at any of our three colleges (Riverside City, Norco or Moreno Valley), hybrid classes are listed according to the campus where the on-campus meetings take place. So, for example, if you’d like to take a hybrid class at Norco, you’d look under the Norco college section of this schedule.

• **Web-Enhanced** classes are traditional face-to-face classes that are augmented with course websites. Unlike hybrid classes, all webenhanced class meetings take place on campus. The course website is an extra value!

Are You Ready for Online Learning?

To take an online, hybrid, or web-enhanced class, here are a few things to keep in mind:

• You should have regular access to a personal computer that is connected to the Internet. Not sure whether your computer measures up? Go to www.opencampus.com/students.html and click on the “Blackboard’s Browser and System Requirements” link.

• You should be familiar with basic computer operations: for example, using a word processing program, logging onto the Internet, using a browser, and sending e-mail.

• You should be self-disciplined and have strong study skills. It’s easier to fall behind in an online class.

• Lastly, you shouldn’t believe the myth that online or hybrid classes are “easier” than face-to-face classes. In fact, online classes cover the same material as face-to-face classes, and many students say that their online classes actually require more of their time than their face-to-face classes. Set aside a few minutes and take the Distance Education Learning quiz to help you decide.

Please note: To enable online-based students to communicate more effectively with their instructors, students need to activate and use their RCCD e-mail account. Personal e-mail addresses will not be used so the RCCD account is the only method of formal communication from RCCD to the student. For information on accessing your RCCD email account, please see page 8 in the Information Pages portion of the schedule, or go to mail.office365.com to sign in with your RCCD email address.

What’s An Online Class Like?

Sample an online class: go to www.opencampus.com/students.html. Click on the “Visit the Sample Class” link.

**Our distance education courses** are currently undergoing a change in learning management systems (LMS) from Blackboard to Canvas. Certain course sections are now being taught in Canvas. To find a list of these courses and how this affects your online, hybrid, or web-enhanced class, please go to the Distance Education Website, students’ page for RCCD at: http://www.opencampus.com/students.html.

The District takes student and instructor privacy seriously. When you register for an Distance Education class, the District provides students and faculty with a secure log in and password. This password is issued to and is intended for the student who has enrolled in the Distance Education course section. The password and log in are required each time the student and faculty member logs into their Distance Education course section(s). At that time, the student will affirm that he/she is the individual signing in and completing the work for his/her online courses. Finally, anti-plagiarism software is used by faculty members to ensure academic honesty. Some online classes require proctored exams, either at one of the RCCD colleges or by an off-site proctor approved by the instructor. For additional information, please visit www.opencampus.com/students.html.
ACCOUNTING

ACC-1A  Principles of Accounting I  3 UNITS
Prerequisite: None
Advisory: BUS-20
Description: An introduction to accounting principles and practice, as a manual and/or computerized information system that provides and interprets economic data for economic units within a global society. Includes recording, analyzing, and summarizing procedures used in preparing financial statements. 54 hours lecture.
32002  Last day to add: 02/22/19
OL  02/11/19  06/07/19
ON LINE
The above section is an online class that requires an on-site proctored final exam. Computer with Internet access required. See www.opencampus.com. Please note the start and end dates.
Instructor: P Worsham

ACC-1A  Principles of Accounting I  3 UNITS
Prerequisite: None
Advisory: BUS-20
Description: An introduction to accounting principles and practice, as a manual and/or computerized information system that provides and interprets economic data for economic units within a global society. Includes recording, analyzing, and summarizing procedures used in preparing financial statements. 54 hours lecture.
32003  Last day to add: 02/19/19
OL  02/11/19  04/05/19
ON LINE
The above section is a short term online class that requires an on-site proctored final exam. Computer with Internet access required. See www.opencampus.com. Please note the start and end dates.
Instructor: D White

ACC-1A  Principles of Accounting I  3 UNITS
Prerequisite: None
Advisory: BUS-20
Description: An introduction to accounting principles and practice, as a manual and/or computerized information system that provides and interprets economic data for economic units within a global society. Includes recording, analyzing, and summarizing procedures used in preparing financial statements. 54 hours lecture.

completed online. Please note the start and end dates.
Instructor: J Perry

CIS-2  Fundamentals of Systems Analysis
(same As Csc-2)  3 UNITS
Prerequisite: None
Description: The course presents a systematic methodology for analyzing a
business problem or opportunity, determining what role, if any, computer-based
technologies can play in addressing the business need, articulating business
requirements for the technology solution, specifying alternative approaches to
acquiring the technology capabilities needed to address the business requirements,
and specifying the requirements for the information systems solution in particular,
in-house development, development from third-party providers, or purchased
commercial-off-the-shelf packages. 54 hours lecture and 18 hours laboratory.(TBA
option) (Letter Grade, or Pass/No Pass option.)
OL 02/11/19 04/07/19 ON LINE
OLL 02/11/19 04/07/19 ON LINE
The above section is a short-term online class. Computer with Internet access required.
See www.opencampus.com. All hours, including the 18-hour laboratory requirement, are
completed online. Please note the start and end dates.
Instructor: S Bhatia

CIS-3  Computer Applications for Business
(same As Bus/Cat-3)  3 UNITS
Prerequisite: None.
Description: Introductory to intermediate concepts covering Windows operating
system, file management, and various aspects of typical office applications for
business and office professionals. (Same as BUS/CAT-3)
OL 02/11/19 04/07/19 ON LINE
OLL 02/11/19 04/07/19 ON LINE
The above section is a short-term online class. Computer with Internet access required.
See www.opencampus.com. All hours, including the 18-hour laboratory requirement, are
completed online. Please note the start and end dates.
Instructor: P Bainum

CIS-5  Programming Concepts and
Methodology I: C++  4 UNITS
Prerequisite: None
Advisory: CIS-1A
Description: Introduction to the discipline of computer science incorporating
problem definitions, algorithm development, and structured programming logic
for business, scientific and mathematical applications. The C++ language will be
used for programming problems. 54 hours lecture and 54 hours laboratory.
OL 02/11/19 06/07/19 ON LINE
OLL 02/11/19 06/07/19 ON LINE
The above section is an online class. Computer with Internet access required.

Instructor: S Sumiati

EAR-20  Child Growth and Development  
3 UNITS

Prerequisite: None
Description: This introductory course examines the major physical, psychosocial, and cognitive/language developmental milestones for children, both typical and atypical, from conception through adolescence. There will be an emphasis on interactions between maturational processes and environmental factors. While studying developmental theory and investigative research methodologies, students will observe children, evaluate individual differences and analyze characteristics of development at various stages. Outside observations required. 54 hours lecture.

EAR-47  Childhood Stress and Trauma  3 UNITS
Prerequisite: None.
Description: This course is a comprehensive overview of concepts, theories, and issues related to childhood stress and trauma. Emphasis is on the short- and long-term effects that stress and trauma has on the physical, cognitive, language, social, and emotional stages of a child’s development. Students will be introduced to child behavior patterns and potential responses to stress and trauma. Students will examine research and innovative methods that support the child’s coping skills and healing process. This course is designed to develop an understanding of how children react and adapt to stress and trauma and what parents and early childhood practitioners can do to assist children. Outside observations required. 54 hours lecture.

Prerequisite: MAT-52  
Description: The concepts introduced in elementary algebra are presented again, but in greater depth. In addition to basic algebraic operations and graphing, students are introduced to functions, inverse functions, exponential and logarithmic functions, complex numbers, conic sections, nonlinear systems of equations, and sequences and series. 90 hours lecture. (Letter Grade or Pass/No Pass option)

22474  Last day to add: 02/22/19  
OL  02/11/19  06/07/19  ON LINE  
The above section is an online class. Computer with Internet access required.
See www.opencampus.com. In addition to the online lecture, students are required to attend the Moreno Valley College, for two proctored exams: a midterm exam for 1 hour and 30 minutes each and a final exam for 2 hours and 30 minutes. The instructor will notify the students of exact times and rooms (or date changes) of these proctored exams.
Instructor: J Mulari
MAT-35 Intermediate Algebra 5 UNITS
Prerequisite: MAT-52
Description: The concepts introduced in elementary algebra are presented again, but in greater depth. In addition to basic algebraic operations and graphing, students are introduced to functions, inverse functions, exponential and logarithmic functions, complex numbers, conic sections, nonlinear systems of equations, and sequences and series. 90 hours lecture. WRK 02/11/19 06/07/19 ON LINE
The above section is an online class. Computer with Internet access required. See www.open-campus.com. In addition to the online lecture, students are required to attend an orientation at Norco College the first week of the semester, dates and times will be posted in Blackboard. Students must also meet on-campus for an instructor conference and for final exams. Please see Blackboard for specific dates and times.
Instructor: Staff

MUSIC INDUSTRY STUDIES

MIS-200 Music Industry Studies Work Experience 1 UNIT
Prerequisite: None.
Advisory: Students should have paid or voluntary employment.
Description: This course is designed to coordinate the student's occupational on-the-job training with related instruction in work-related skills. Students may earn up to four (4) units each semester for a maximum of 16 units of work experience. No more than 20 hours per week may be applied toward the work requirement. Students enrolling in WKX-200 are administratively moved to the appropriate general or occupational work experience course after the first class meeting based upon several factors, including the number of hours worked during the semester, occupational program requirements, and type of work in which the student is engaged. 18 hours orientation and 60 hours of volunteer work experience (maximum of 240 hours) or 75 hours of paid work experience (maximum of 300 hours) are required for each enrolled unit. (Letter Grade or Pass/No Pass option.)

WORK EXPERIENCE

WKX-200  Work Experience  1 UNIT
Prerequisite: None
Advisory: Students should have paid or voluntary employment
Description: This course is designed to coordinate the students occupational on-the-job training with related instruction in work-related skills, including occupational and educational resources, career planning, resume development and interview techniques. Students may earn up to four (4) units each semester for a maximum of 16 units of work experience. No more than 20 hours per week may be applied toward the work requirement; 60 hours of volunteer work or 75 hours of paid work in the semester are required for each unit. WKX-200 is an enrolling course for General Work Experience and Occupational Work Experience courses. Students enrolling in WKX-200 are administratively moved to the appropriate general or occupational work experience course after the first class meeting. Determination of the appropriate work experience course is made by the instructor, with input from the student, based upon several factors, including the number of hours worked during the semester, occupational program requirements, and type of work in which the student is engaged. 18 hours orientation and 60 hours of volunteer work experience (maximum of 240 hours) or 75 hours of paid work experience (maximum of 300 hours) are required for each enrolled unit.
