Distance Education

GEG 1LDE **Physical Geography Laboratory**

Rationale: Evening students are often parents with full-time jobs. Coming to campus twice or three times a week, once for GEG1 and once or twice for GEG1L is often difficult. Offering a Hybrid Lab (GEG 1L) together with a Hybrid lecture (GEG 1) on the same night will make college more accessible for working adults and other students.

Area of Emphasis

		M	N	R	Discussion	Action
CIS AA494	Administration and Information Systems			<input checked="" type="checkbox"/>	4/18/19 - Has been pushed to Academic Senate, but will continue to hold at DCC.	Hold
<u>Rationale:</u>	First, to provide a pathway for students that complete the state approved Information Security and Cyber Defense certificate program (CE740) to obtain an associate degree. Second, to ensure that all students awarded this degree, take at least CIS-1A to obtain this degree. Since the degree is titled Administration and Information Systems, it is the Business, Information Systems and Technology department's desire that students obtaining this degree have taken at least this core course that is related to administration and information systems

Certificate

CIS **Information Technology Model Curriculum (Certificate/State)**

Rationale: The goal of this program is to increase diversity in the technical workforce by providing an education platform for entry-level Information Technology support specialists, network technician, infrastructure support, and network security specialist. This program aims to develop quality and quantity of technical professionals to fulfill business needs and generate greater economic impact in the greater Inland Empire region.

Tech Review: Approved, 3/5/2019
New program being created by adding two courses to existing program

MOV: Hold, 3/12/2019

Awaiting the CIS-40A, CIS-40B courses to be approved.

NOR: Hold, 3/26/2019

Missing core courses that Norco doesn't offer.

RIV: Approved, 3/12/2019

o This was approved, with changes both required and suggested.
- Suggested
• The title – seems awkward (more like TMC language).
• RIV asked the discipline to consider creating a degree based on this cert.
• PLOs – in the first PLO, replace “Providing...” with “Provide...” The discipline member present agreed.
- Required – there are mistakes on the proposal itself that needs to be fixed.
• Required Core Courses
o CIS 26A (4 units) or CIS 40A (3 units). Unit value isn't correct on proposal.
o This makes the required core courses either 14 or 15 units.
• MAT 4 – this course was recently deleted, and needs to be removed from this cert.
• Total Units – must be modified to 24-25 units

3/19/2019 - Missing supporting documents and college specific POR needed.

4/2/2019 - Norco has decided against adding this program to their inventory.

Continuing to hold for other changes. Awaiting updated POR for Moreno Valley.

CIS **IT Technician Pathway: IT Systems Specialist**

Rationale: The goal of this program is to increase diversity in the technical workforce by providing an education platform for entry-level IT Systems Specialists, network technician, desktop support, and network specialist. This program aims to develop quality and quantity of technical professionals to fulfill business needs and generate greater economic impact in the greater Inland Empire region. Students will gain soft and technical skills necessary to become entry-level IT Systems Specialist, network technician, desktop support, and network specialist.

Tech Review: Approved, 4/18/2019
Certificate may need to be 16 units, not 15.

M N R Discussion

Action

Rationale: Update description and textbooks and add objectives.

Approved

Tech Review: Approved, 4/2/2019
There is content in the "Additional Laboratory Content Outline," but no Lab Hours listed for the course.

Distance Education

GEG 1LDE Physical Geography Laboratory

M N R Discussion

Action

Rationale: Evening students are often parents with full-time jobs. Coming to campus twice or three times a week, once for GEG1 and once or twice for GEG1L is often difficult. Offering a Hybrid Lab (GEG 1L) together with a Hybrid lecture (GEG 1) on the same night will make college more accessible for working adults and other students.

Held from 12/4/2018 DCC meeting. GEG-1L and the DE proposal will need to be checked for further updates.

Area of Emphasis

CIS AA494 **Administration and Information Systems**

Rationale: First, to provide a pathway for students that complete the state approved Information Security and Cyber Defense certificate program (CE740) to obtain an associate degree.

4/18/19 - Has been pushed to Academic Senate, but will continue to hold at DCC.

Hold

Second, to ensure that all students awarded this degree, take at least CIS-1A to obtain this degree. Since the degree is titled Administration and Information Systems, it is the Business, Information Systems and Technology department's desire that students obtaining this degree have taken at least this core course that is related to administration and information systems

Discussion Items

- a. Distance Education Approval Process – Dr. Sheila Pisa
 - a. Dr. Sheila Pisa discussed that the Distance Education (DE) Committee is seeking to review proposals potentially prior to drafts being launched in Meta in order to advise faculty on Distance Education requirements. The DE Committee is also seeking to create a rubric to assist in reviewing proposals to ensure they conform to best practices and standards. The rubric may be available for review at the end of May 2019.
 - b. The District Curriculum Committee recommended that a member of the DE Committee attend Tech Review in order to provide input on Distance Education

proposals and/or create a form that be attached to proposals at launch that would indicate DE Committee approval.

- c. Brian Johnson recommended that DE Committee members review class websites to ensure they are compliant with DE standards.
- d. Greg Burchett recommended that a link to the DE Committee website be placed on each of the College Curriculum Committee websites in order to refer faculty for consultation.
- e. An Annual DE Survey was provided to the committee members who agreed to present it at the following College Curriculum Committee for input.

Area of Emphasis

CIS AA494 Administration and Information Systems

Rationale: First, to provide a pathway for students that complete the state approved Information Security and Cyber Defense certificate program (CE740) to obtain an associate degree.

Second, to ensure that all students awarded this degree, take at least CIS-1A to obtain this degree. Since the degree is titled Administration and Information Systems, it is the Business, Information Systems and Technology department's desire that students obtaining this degree have taken at least this core course that is related to administration and information systems

Certificate

CIS **Information Technology Model Curriculum (Certificate/State)**

Rationale: The goal of this program is to increase diversity in the technical workforce by providing an education platform for entry-level Information Technology support specialists, network technician, infrastructure support, and network security specialist. This program aims to develop quality and quantity of technical professionals to fulfill business needs and generate greater economic impact in the greater Inland Empire region.

Tech Review: Approved, 3/5/2019
New program being created by adding two courses to existing program

MOV: Hold, 3/12/2019

NOR: Hold, 3/26/2019

Missing core courses that Norco doesn't offer.

RIV: Approved, 3/12/2019

o This was approved, with changes both required and suggested.
- Suggested
• The title – seems awkward (more like TMC language).
• RIV asked the discipline to consider creating a degree based on this cert.
• PLOs – in the first PLO, replace “Providing...” with “Provide...” The discipline member present agreed.
- Required – there are mistakes on the proposal itself that needs to be fixed.
• Required Core Courses
o CIS 26A (4 units) or CIS 40A (3 units). Unit value isn't correct on proposal.
o This makes the required core courses either 14 or 15 units.
• MAT 4 – this course was recently deleted, and needs to be removed from this cert.
• Total Units – must be modified to 24-25 units

3/19/2019 - Missing supporting documents and college specific POR needed.

Hold

4/2/2019 - Norco has decided against adding this program to their inventory.

Continuing to hold for other changes.

LOT **Optoelectronics**

Rationale: Completing the requirements for this Certificate will prepare students with the basic skills needed to gain employment in optoelectronics. An employee with skills in optoelectronics is capable of working in the fields of semiconductor electronics, where computer circuitry and chips are made. In addition, camera and sensor technology relies heavily on optoelectronic devices to detect light optical source technology markets use optoelectronic components in the making of laser diode and light-emitting diode (LED) sources.

Discussion

Action

CIS **Coding Prep**

Rationale:

The Coding Prep, non-credit Certificate of Competency provides students an overview of the knowledge and skills needed in fields that require software coding for the development of computer applications. The content provides an introduction to the field of study and covers basic foundational concepts.

The certificate pattern begins with a historical synopsis of relevant topics and personalities in the computing field. It progresses to the development of algorithms which are solutions of everyday problems that can be interpreted and processed by a machine. Simple tools like calculators and spreadsheets help formulate test conditions to assure program fidelity. Computers are composed of simple logic gates and an understanding of Boolean logic is essential for controlling their processing architecture. The ability to document both textually and visually helps in designing and writing the actual computer code. Last but not least, it is important to write an introductory program and store this in a repository.

Tech Review: Approved, 10/2/2018

To provide a preparatory skill set orienting the student towards the design and development of software applications.

CIS **Information Technology Model Curriculum (Certificate/State)**

Rationale:

The goal of this program is to increase diversity in the technical workforce by providing an education platform for entry-level Information Technology support specialists, network technician, infrastructure support, and network security specialist. This program aims to develop quality and quantity of technical professionals to fulfill business needs and generate greater economic impact in the greater Inland Empire region.

RIV: Approved, 3/12/2019

Awaiting the CIS-40A, CIS-40B courses to be approved.

Missing core courses that Norco doesn't offer.

o This was approved, with changes both required and suggested.
- Suggested
• The title – seems awkward (more like TMC language).
• RIV asked the discipline to consider creating a degree based on this cert.
• PLOs – in the first PLO, replace “Providing...” with “Provide...” The discipline member present agreed.
- Required – there are mistakes on the proposal itself that needs to be fixed.
• Required Core Courses
o CIS 26A (4 units) or CIS 40A (3 units). Unit value isn't correct on proposal.
o This makes the required core courses either 14 or 15 units.
• MAT 4 – this course was recently deleted, and needs to be removed from this cert.
• Total Units – must be modified to 24-25 units

3/19/2019 - Missing supporting documents and college specific POR needed.

CIS	Operating Systems and Internet Literacy (Non-Credit Certificate)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	3/19/19 - College wishes to verify supporting documents.	Approved
Rationale:	The goal of this program is to provide training to a diverse population of adult learners to support Adult Education and Community Initiatives and drive awareness of technical skills and security practices in the community. The program intends to improve diversity in the population of learners while positively build student interests in education options and promote career growth district-wide. Students will gain soft and technical skills necessary to interface Windows, Linux and Mac operating systems to locate applications and resources, manage files and access Internet for personal and business purposes.

LOT	Optoelectronics	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	3/19/19 - Missing supporting documents. 4/2/19 - Continuing to hold.	Hold
Rationale:	Completing the requirements for this Certificate will prepare students with the basic skills needed to gain employment in optoelectronics. An employee with skills in optoelectronics is capable of working in the fields of semiconductor electronics, where computer circuitry and chips are made. In addition, camera and sensor technology relies heavily on optoelectronic devices to detect light optical source technology markets use optoelectronic components in the making of laser diode and light-emitting diode (LED) sources.

Course Major Modification	Riverside City	COM	89	Intramural Competition	This is a bi-annual event here at RCC. Creating a class for it creates a mechanism for students to receive credit for participating as well as it showing on their transcripts. RCC had a long history of Forensics which was always underfunded and proved unsuccessful. In the spirit of competition of Communication Studies and its roots in rhetoric, the Bi-Annual Intramural Tournament was created. After piloting the intramural its successes have been proven again and again.	FALSE		Approved

Course Deletion	Moreno Valley	FIT	E2A	First Responder Medical	The FIT E2A course is outdated and doesn't fit in the fire catalog. The course is being relaunched under the EMS catalog as EMS 41 and is updated to meet the needs of the EMS students and faculty.	FALSE		Approved		Approved
Course Deletion	Riverside City	SPA	1A	Spanish 1A	Spanish 1A and 1B have not been offered for a decade. 1A filled well, but 1B filled with 2 - 5 students, which means it was consistently cancelled. It made it difficult for these students to complete the 1A/1B transfer sequence.	FALSE		Approved		Approved
Course Deletion	Riverside City	SPA	1B	Spanish 1B	Historically, this course enrolls under five students, making it an economically inefficient class. It gets cancelled, putting students in the position of not completing the 1A/1B transfer sequence.	FALSE		Approved		Approved

Course Major Modification	Moreno Valley	ENG	50	Basic English Composition	This course was just revised and approved last academic year (2017-18). We are only putting it through a major mod again this year to remove old pre-requisites we no longer offer, to change SLOs to objectives, and to add ESL and Reading as additional disciplines that may teach this course. The intention is to allow faculty with an FSA in English or ESL or Reading to be able to teach the course (not to cross-list the class as a REA or ESL class).	FALSE

Hi Amanda and Larissa,

I completely approve and you have my full support in adding Art 4, Art 10, Art 1H and Art 2H to the MVC catalogue. These are all crucial classes to a comprehensive undergraduate program in Art History and should most definitely be part of your upcoming ADT, as well. Please let me know if I can be of any assistance, I am here to help.

All the best,
Rhonda

Subject: your approval of including Art 4, Art 10, Art 1H, and Art 2H in MVC catalogue 2018-2019

Hi Rhonda

I wanted to get your disciplinary approval for curriculum purposes that including Art 4, Art 10, and Art 1H and Art 2H is important for inclusion in the MVC catalogue for 2018-2019. This is especially important as all 4 courses will also be included in the Art History ADT for MVC, which I am currently working on.

I'm looking forward to hearing from you on this.

Thanks,

Amanda

New Course		Riverside City	ART	92	Visual Description	The Art Department met with UC Riverside's articulation officer for the Arts and the chair of the UCR Art History program to discuss a pathway for RCC students interested in art history. This class was mentioned as a necessary component of an undergraduate art education and we were strongly encouraged to develop this in our curriculum as part of our articulation agreement. The agreement is pending the approval of this type of class. This is not meant to be a replacement for an English class, rather like all art history coursework, English 1A will be highly recommended prior to taking this class.	FALSE		Approved
New Course		Riverside City	ART	93	Rome: The Ancient City	A necessary class for our Art History students in their pathway to a UC.	FALSE		Approved

New Course		Riverside City	BIO	40	Biometrics	As part of the STEM project, RCC was contacted by the California State Polytechnic University at Pomona to develop a transferable statistical application course, which is equivalent to their Biometrics course (BIO 211/211L). This course is designed for science majors where statistical analysis is fundamental to their research. CPP's course has a statistics and biology prerequisite, and this proposed course has both statistics (MAT 12) and majors-level biology (both BIO 11 and BIO 12) as prerequisites, in order to transfer.
