

2. Norco
  - a. The committee also received the presentation from the non-credit group on the strategic plan.
  - b. The Carpentry program will be forthcoming with many courses. Because it is an apprenticeship program and the courses are being adopted from other colleges, some of the hours and unit math may be different.
  - c. Kelly Douglass – Do apprenticeship courses go through Work Experience? Is there oversight?
    - i. Ann Pfeifle – It is distinct, but there are similarities in that you have an expert that is not necessarily a faculty member that the students work with.
3. Riverside
  - a. The committee is working through the regulations around the Brown Act. The committee is also receiving a presentation on the non-credit strategic plan next week.

### **Action Items**

1. Curriculum Proposals

### **Discussion Items**

1. Draft Noncredit Strategic Plan and Timeline (See Attachments) – Susan Mills
  - a. The strategic plan was presented last week to Norco and Moreno Valley College and will be presented on Tuesday for RCC. There is quite an emphasis on curriculum development, making sure the processes for non-credit are in the handbook, and potentially developing a separate handbook for non-credit. Additional emphasis is also on training for faculty, making sure faculty understand the purposes of non-credit, and how it can benefit our students.
  - b. All three college Curriculum Committees are receiving the presentation as are all three Academic Senates. It will go to Senates for approval at a later meeting. Eventually it will be brought to the Board to approval. The group is seeking comments, questions, suggested changes, and recommendations.
  - c. Kelly Douglass – On page 3, there is a graphic at the bottom that has non-credit course categories and CDCP eligible categories, but no where does it explain what the impact of CDCP and regular non-credit courses are on faculty teaching loads. The load calculation for CDCP may be the same as credit, but it is not clear what the difference is for non-CDCP courses. Union President Taube indicated there is a formula, but many are unsure where the formula is. The plan could get more faculty buy-in if the impacts to faculty are in the plan.
  - d. Susan Mills – Have been trying to get answers to this for several years. Not just the load, but also the impact on faculty retirement. There is language in Ed Code about adult education and what the expected load is, but there are a myriad of questions. When there is a mirrored course, the expectation is that it is the same as the credit version. If you're teaching non-mirrored like Senior Citizen Education

**Program Documentation**

1. Program Modifications
  - a. ADT Kinesiology (Moreno Valley, Norco, and Riverside)
  - b. Computer Numerical Control Programming
