C-ID or Assist Articulation Information, and the most current TMC Template *(Work with your Articulation Officer to obtain this documentation)*

Program Narrative

Item 1. Program Goals and Objectives

The Associate in Arts in History for Transfer degree is a curricular pattern designed specifically to transfer students as History majors with junior status to the CSU system. Though the Associate in Arts in History for Transfer also provides broad general preparation for History majors entering any four-year university, students must consult the specific requirements of any non-CSU campus to which they are applying.

PROGRAM LEARNING OUTCOMES

Upon successful completion of this program, students should be able to do the following:

- Describe, explain, and evaluate historical information and demonstrate an understanding of the nature of historical processes.
- Identify and analyze the sources of historical information and research methodologies.
- Objectively explain critical issues in history and be able to use theories and debates to argue convincingly in defense of a position, selecting examples to illustrate points and organizing these appropriately.
- Employ a variety of current historical methodologies in the research, analysis and evaluation of data.
- Comprehend and demonstrate critical thinking ability including the understanding of alternative explanations and the forming of conclusions from the data presented.

Item 2. Catalog Description

The Associate in Arts in History for Transfer degree is a curricular pattern designed specifically to transfer students as History majors with junior status to the CSU system. Though the Associate in Arts in History for Transfer also provides broad general preparation for History majors entering any four-year university, students must consult the specific requirements of any non-CSU campus to which they are applying. Students earning the Associate in Arts in History for Transfer degree will acquire a broad perspective on the human experience and appreciate how the past has shaped the present. They will learn about major events and people of the past, especially their social, cultural and political effects. In addition, students will learn how to interpret, debate, and draw conclusions using primary historical sources.

Item 1. Program Goals and Objectives

The goal of the Associate in Science in Mathematics for Transfer Degree program is to provide the lower division preparation needed for students to transfer to the CSU system, UC system, and local private universities to attain a baccalaureate major in Mathematics. The intent of this degree is to assist students in seamlessly transferring to a CSU.

Objective 1) The courses required and recommended for the Associate in Science in Mathematics for Transfer degree will be aligned, scheduled, and taught over a 2-year period to assure that all students pursuing said degree will matriculate on schedule.

Objective 2) Course schedules and teaching assignments for the Associate in Science in Mathematics for Transfer degree will be available for Spring 2014.

PROGRAM LEARNING OUTCOMES

Upon successful completion of this program, students should be able to:

- Reason mathematically both abstractly and computationally.
- Create and analyze mathematical models.

Item 2. Catalog Description

The Associate in Science Degree in Mathematics for Transfer is designed to prepare the student for transfer to institutions of higher education and specifically intended to satisfy the lower division requirements for the Baccalaureate Degree in Mathematics at a California State University (but does not guarantee acceptance to a particular campus or major). It will also provide the student with a sufficient academic basis from which to pursue a career in mathematics, statistics, actuarial sciences, and education.

PROGRAM LEARNING OUTCOMES

Upon successful completion of this program, students should be able to:

- Reason mathematically both abstractly and computationally.
- Create and analyze mathematical models.
