ETS 1 **Introduction to Ethnic Studies** ☒ ☒ ☒
Rationale: Based on feedback received from the CSU review committee, the Course description was revised to provide greater clarity on how students will be introduced to the field of Ethnic Studies in this course.
MOV: **Approved, 10/28/2025** **NOR:** **Approved, 10/28/2025** **RIV:** **Approved, 10/28/2025**

ETS 3 **Introduction to African American Studies** ☒ ☒ ☒
Rationale: This major modification strengthens ETS 3 in response to reviewer feedback and ensures alignment with Area 6 Ethnic Studies requirements. Greater clarity has been added to the course description, objectives, and content to highlight how students are introduced to the field of African American/Black Studies. The revised description explicitly situates the course within the interdisciplinary origins of the discipline, names foundational frameworks such as Afrocentricity and intersectionality, and incorporates key scholars (e.g., W.E.B. Du Bois, Angela Davis, Kimberlé Crenshaw) and movements that define the field. Course objectives and content have been expanded with specific examples from readings, ensuring clear mapping to Ethnic Studies Core Competencies, particularly those emphasizing resistance, self-determination, intersectionality, and social transformation. College-level assignments have been updated to include a clarified community engagement component, with examples of guest speakers, organizations, and community-based opportunities. This adjustment makes explicit the connection between African American Studies and praxis, while providing students with concrete ways to bridge theory and community engagement. Overall, these modifications provide stronger transparency for students and instructors, create clear pathways for assessing student learning, and underscore the discipline's intellectual and activist foundations.

ETS 7 **Women of Color in the United States** ☒ ☒ ☒
Rationale: The proposed major modification to ETS 7: Women of Color in the United States is necessary to address reviewer feedback and ensure alignment with both Area 6 Ethnic Studies and Area 3B Humanities requirements. Feedback indicated that the course description and content did not sufficiently highlight the diversity of Women of Color's perspectives, nor did it demonstrate a clear emphasis on the analysis of philosophical, historical, literary, aesthetic, religious, and cultural works. To strengthen the course's alignment with Area 6 Ethnic Studies, the revised description and content explicitly name and integrate diverse women's traditions and movements across American Indian/Native American, Chicana/o/x or Latina/o/x, African American, and Asian American Studies. This change ensures specificity regarding the struggles, histories, and contributions of Women of Color, while also foregrounding womanist perspectives as foundational to the discipline. Furthermore, the modification maps community engagement assignments—such as oral histories, case studies, and collaborative projects—directly to the analysis of these traditions, clarifying the applied and experiential dimensions of student learning. To meet the expectations of Area 3B Humanities, the revised course description incorporates explicit reference to philosophical, historical, literary, aesthetic, religious, and cultural works created by Women of Color. This language ensures that students are not only introduced to theoretical frameworks and historical struggles but are also encouraged to critically analyze and appreciate works of cultural and intellectual significance. Emphasis on critical reading and writing skills, along with assignments such as research papers, multimedia projects, and textual analysis, reinforce the course's grounding in humanities approaches. In sum, the modification is needed to more clearly articulate the breadth and depth of Women of Color's contributions, to reinforce the integration of womanist and intersectional frameworks, and to demonstrate the course's dual alignment with the Ethnic Studies and Humanities GE areas. These revisions respond directly to feedback, strengthen curricular coherence, and ensure that the course meets transfer and GE approval standards.

ETS 8	Introduction to Black Feminism and Womanism	☒	☒	☒	
Rationale:	The ETS 8 Course Outline of Record was revised to clarify how the course introduces Black Feminism and Womanism within African American Studies, Africana Studies, and Black Studies, thereby strengthening alignment with Area 6 Ethnic Studies competencies. Specific representative thinkers and texts were added to the course content to illustrate the intellectual genealogy of Black Feminist thought, while objectives were embedded into the content to highlight theory, methodology, and systemic analysis. Community engagement opportunities such as oral history projects and guest lectures were expanded to show how classroom learning connects to community practice. In response to Area 3B Humanities criteria, revisions emphasize the philosophical, historical, literary, and aesthetic significance of Black Feminist works, ensuring students analyze and appreciate their cultural and humanistic contributions.

	AUB 82	Introduction to Powder Coating	☐	☐	☒
	Rationale:	This course was created to address the shortage of technicians and training facilities in powder coating, a process increasingly used in both automotive and aftermarket industries. Students will develop entry-level competencies in surface preparation, application techniques, and defect correction, filling a critical training gap and ensuring they are prepared for current industry practices and employer expectations.

	AUB 83	Advanced Powder Coating Techniques	☐	☐	☒
	Rationale:	This course was developed to address the growing need for advanced training in custom powder coating, where demand extends beyond basic finishing into specialized applications for automotive and custom aftermarket markets. By focusing on multi-stage processes, specialty finishes, and precision techniques, the course fills a training gap and equips students with skills valued by employers and customers seeking high-quality, customized results.

ETS 4 [Introduction to Chicana/o/x and Latina/o/x Studies](#) ☒ ☒ ☒
Rationale: Currently, our institution offers a History course that is cross-listed with Ethnic Studies. While this course provides valuable historical context, it does not meet the Ethnic Studies requirement under the California General Education Transfer Curriculum (CAL-GETC). As a result, students intending to fulfill their Ethnic Studies general education requirement for transfer must look outside of this course, limiting its applicability to the broader transfer pathway. The proposed course addresses this gap by establishing a stand-alone Ethnic Studies course in Chicana/o/x and Latina/o/x Studies. Unlike the cross-listed History course, this new course is explicitly designed to meet the Ethnic Studies requirement for transfer under CAL-GETC. Its framework centers Ethnic Studies as a distinct academic discipline, emphasizing interdisciplinary analysis, intersectional frameworks, community-based knowledge, and the lived experiences of Chicana/o/x and Latina/o/x peoples in the United States. Importantly, the course has been developed to closely align with the Chicana/o/x and Latina/o/x Studies Course Identification (C-ID) descriptor, ensuring consistency with statewide standards. This alignment supports articulation and seamless transfer for students moving from community colleges to CSU and UC campuses. By meeting both disciplinary expectations and statewide transfer requirements, the proposed course will: Ensure that students at our college have access to a transferable Ethnic Studies course in Chicana/o/x and Latina/o/x Studies. Broaden academic offerings in Ethnic Studies beyond cross-listed or discipline-specific courses. Strengthen institutional compliance with California legislative mandates (AB 1460 and AB 1040) requiring Ethnic Studies in CSU and CCC general education. Support equity, representation, and student success by centering Chicana/o/x and Latina/o/x experiences as foundational to Ethnic Studies. This proposal not only fills a critical curricular gap but also advances our college's mission to provide rigorous, equity-minded education that prepares students for transfer and lifelong learning.

GEG 9 [Introduction to Environmental Remote Sensing and Image Analysis](#) ☒ ☐ ☒
Rationale: As interest in geographic information systems (GIS) has grown among our students, it is increasingly necessary to offer complementary and scaffolded courses. Remote sensing data and analysis are important sources of data and information in the GIS domain. Helping students learn remote sensing concepts and skills will greatly increase their abilities and career potential in GIS. GEG-9 would also serve as a building block for a planned GIS certificate being developed by the Geography faculty.
