Do you intend to add or remove courses from your discipline to any of the local RCCD GE areas, or will the courses as itemized remain unchanged?

- Yes – Courses will be either added or removed
 No – Changes will not be made to the itemized list
(If no changes will be made to the itemized list, please skip to and complete Item 3 below.)

Item 1: If adding courses:

- the courses must meet the criteria for general education as outlined in the Title 5 §55063 (or, for the American Institutions area, Title 5 §40404). Please see the next pages for additional details.
- the courses must align with at least one general education student learning outcome (GE SLO)
 - if the active COR does not contain at least one GE SLO, a modification is needed

GE Area <i>(e.g., Natural Sciences)</i>	Course <i>(e.g., ENG-1A)</i>	Does the course meet the Title 5 criteria for GE?	Does the current COR contain at least one GE SLO, or is a modification needed?

- Department minutes showing approval

General Education Area Descriptions/Criteria

RCCD General Education Areas:

A. Natural Sciences (3 units)

Title V §55063 b.1.A: Courses in the natural sciences are those which examine the physical universe, its life forms, and its natural phenomena. To satisfy the general education requirement in natural sciences, a course shall be designed to help the student develop an appreciation and understanding of the scientific method, and encourage an understanding of the relationships between science and other human activities. This category would include introductory or integrative courses in astronomy, biology, chemistry, general physical science, geology, meteorology, oceanography, physical geography, physical anthropology, physics and other scientific disciplines.

B. Social and Behavioral Sciences (6 units)

1. American Institutions (3 units)

Title 5, Div. 5, Chap. 1 [CSU], Subchapter 2, Art. 5, §40404.a: Requirements in United States History, Constitution, and American Ideals: The purpose of the following requirements is to ensure that students acquire knowledge and skills that will help them to comprehend the workings of American democracy and of the society in which they live to enable them to contribute to that society as responsible and constructive citizens. To this end each campus shall provide for comprehensive study of American history and American government

*For additional information, please see the Program and Course Approval Handbook (PCH), the RCCD Curriculum Handbook, the Taxonomy of Programs manual, and the TOPs/CIP/SOC crosswalk.
Revised April 2021*

- including the historical development of American institutions and ideals, the Constitution of the United States and the operation of representative democratic government under that Constitution, and the processes of state and local government.
2. Social and Behavioral Sciences (3 units)
Title V §55063 b.1.B: Courses in the social and behavioral sciences are those which focus on people as members of society. To satisfy the general education requirement in social and behavioral sciences, a course shall be designed to develop an awareness of the method of inquiry used by the social and behavioral sciences. It shall be designed to stimulate critical thinking about the ways people act and have acted in response to their societies and should promote appreciation of how societies and social subgroups operate. This category would include introductory or integrative survey courses in cultural anthropology, cultural geography, economics, history, political science, psychology, sociology and related disciplines.
- C. Humanities (3 units)
Title V §55063 b.1.C: Courses in the humanities are those which study the cultural activities and artistic expressions of human beings. To satisfy the general education requirement in the humanities, a course shall be designed to help the student develop an awareness of the ways in which people throughout the ages and in different cultures have responded to themselves and the world around them in artistic and cultural creation and help the student develop aesthetic understanding and an ability to make value judgments. Such courses could include introductory or integrative courses in the arts, foreign languages, literature, philosophy, and religion.
- D. Language and Rationality (10 units)
Title V §55063 b.1.D: Courses in language and rationality are those which develop for the student the principles and applications of language toward logical thought, clear and precise expression and critical evaluation of communication in whatever symbol system the student uses. Such courses include:
1. English composition (4 units)
Title V §55063 b.1.D.i: Courses fulfilling the written composition requirement shall be designed to include both expository and argumentative writing. Such courses may be taught in disciplines such as, but not limited to, English and English as a Second Language.
 2. Communications and analytical thinking (6-8 units)
Title V §55063 b.1.D.ii: Courses fulfilling the communication and analytical thinking requirement including, but not limited to oral communication, mathematics, and quantitative reasoning such as logic, statistics, computer languages and programming, and related disciplines.
- E. Health Education and Self Development (5 units)
1. Health Education (3 units)
 2. Self Development (2 or 3 units)

Riverside Community College District General Education Student Learning Outcomes

From the RCCD Curriculum Handbook: Any course in the RCCD pattern is required to align with at least one general education student learning outcomes (GE SLO):

- Critical Thinking. Students will be able to demonstrate higher order thinking skills about issues, problems, and explanations for which multiple solutions are possible. Students will be able to explore problems and, where possible, solve them. Students will be able to develop, test, and evaluate rival hypotheses. Students will be able to construct sound arguments and evaluate the arguments of others.
- Information Competency & Technology Literacy. Students will be able to use technology to locate, organize, and evaluate information. They will be able to locate relevant information, judge the reliability of sources, and evaluate the evidence contained in those sources as they construct arguments, make decisions, and solve problems.
- Communication. Students will be able to communicate effectively in diverse situations. They will be able to create, express, and interpret meaning in oral, visual, and written forms. They will also be able to demonstrate quantitative literacy and the ability to use graphical, symbolic, and numerical methods to analyze, organize, and interpret data.
- Self-Development & Global Awareness. Students will be able to develop goals and devise strategies for personal development and well-being. They will be able to demonstrate an understanding of what it means to be an ethical human being and effective citizen in their awareness of diversity and various cultural viewpoints.

<RCCD GE Review Music Update 051221.docx>

Discipline Name: Mathematics

Do you intend to add or remove courses from your discipline to any of the local RCCD GE areas, or will the courses as itemized remain unchanged?

- Yes – Courses will be either added or removed
- No – Changes will not be made to the itemized list
(If no changes will be made to the itemized list, please skip to and complete Item 3 below.)

Item 1: If adding courses:

- the courses must meet the criteria for general education as outlined in the Title 5 §55063 (or, for the American Institutions area, Title 5 §40404). Please see the next pages for additional details.
- the courses must align with at least one general education student learning outcome (GE SLO)
 - if the active COR does not contain at least one GE SLO, a modification is needed

- Department minutes showing approval

General Education Area Descriptions/Criteria

RCCD General Education Areas:

- A. Natural Sciences (3 units)
 Title V §55063 b.1.A: Courses in the natural sciences are those which examine the physical universe, its life forms, and its natural phenomena. To satisfy the general education requirement in natural sciences, a course shall be designed to help the student develop an appreciation and understanding of the scientific method, and encourage an understanding of the relationships between science and other human activities. This category would include introductory or integrative courses in astronomy, biology, chemistry, general physical science, geology, meteorology, oceanography, physical geography, physical anthropology, physics and other scientific disciplines.
- B. Social and Behavioral Sciences (6 units)
 - 1. American Institutions (3 units)
 Title 5, Div. 5, Chap. 1 [CSU], Subchapter 2, Art. 5, §40404.a: Requirements in United States History, Constitution, and American Ideals: The purpose of the following requirements is to ensure that students acquire knowledge and skills that will help them to comprehend the workings of American democracy and of the society in which they live to enable them to contribute to that society as responsible and constructive citizens. To this end each campus shall provide for comprehensive study of American history and American government including the historical development of American institutions and ideals, the Constitution of

- the United States and the operation of representative democratic government under that Constitution, and the processes of state and local government.
2. **Social and Behavioral Sciences (3 units)**
Title V §55063 b.1.B: Courses in the social and behavioral sciences are those which focus on people as members of society. To satisfy the general education requirement in social and behavioral sciences, a course shall be designed to develop an awareness of the method of inquiry used by the social and behavioral sciences. It shall be designed to stimulate critical thinking about the ways people act and have acted in response to their societies and should promote appreciation of how societies and social subgroups operate. This category would include introductory or integrative survey courses in cultural anthropology, cultural geography, economics, history, political science, psychology, sociology and related disciplines.
- C. **Humanities (3 units)**
Title V §55063 b.1.C: Courses in the humanities are those which study the cultural activities and artistic expressions of human beings. To satisfy the general education requirement in the humanities, a course shall be designed to help the student develop an awareness of the ways in which people throughout the ages and in different cultures have responded to themselves and the world around them in artistic and cultural creation and help the student develop aesthetic understanding and an ability to make value judgments. Such courses could include introductory or integrative courses in the arts, foreign languages, literature, philosophy, and religion.
- D. **Language and Rationality (10 units)**
Title V §55063 b.1.D: Courses in language and rationality are those which develop for the student the principles and applications of language toward logical thought, clear and precise expression and critical evaluation of communication in whatever symbol system the student uses. Such courses include:
1. **English composition (4 units)**
Title V §55063 b.1.D.i: Courses fulfilling the written composition requirement shall be designed to include both expository and argumentative writing. Such courses may be taught in disciplines such as, but not limited to, English and English as a Second Language.
 2. **Communications and analytical thinking (6-8 units)**
Title V §55063 b.1.D.ii: Courses fulfilling the communication and analytical thinking requirement including, but not limited to oral communication, mathematics, and quantitative reasoning such as logic, statistics, computer languages and programming, and related disciplines.
- E. **Health Education and Self Development (5 units)**
1. **Health Education (3 units)**
 2. **Self Development (2 or 3 units)**

Riverside Community College District General Education Student Learning Outcomes

From the RCCD Curriculum Handbook: Any course in the RCCD pattern is required to align with at least one general education student learning outcomes (GE SLO):

- **Critical Thinking**. Students will be able to demonstrate higher order thinking skills about issues, problems, and explanations for which multiple solutions are possible. Students will be able to explore problems and, where possible, solve them. Students will be able to develop, test, and evaluate rival hypotheses. Students will be able to construct sound arguments and evaluate the arguments of others.
- **Information Competency & Technology Literacy**. Students will be able to use technology to locate, organize, and evaluate information. They will be able to locate relevant information, judge the reliability of sources, and evaluate the evidence contained in those sources as they construct arguments, make decisions, and solve problems.
- **Communication**. Students will be able to communicate effectively in diverse situations. They will be able to create, express, and interpret meaning in oral, visual, and written forms. They will also be able to demonstrate quantitative literacy and the ability to use graphical, symbolic, and numerical methods to analyze, organize, and interpret data.
- **Self-Development & Global Awareness**. Students will be able to develop goals and devise strategies for personal development and well-being. They will be able to demonstrate an understanding of what it means to be an ethical human being and effective citizen in their awareness of diversity and various cultural viewpoints.

Notes for Spring 2021 RCCD Math Discipline Meeting

May 21, 2021

Zoom

Present: Adriana Aries, Nicolae Baciuna, Amanda Brown, Veasna Chiek, Elisa Chung, Pam Crampton, Rosalia Cueto, Shelly Dawson, Sean Drake, Evan Enright, Gabriela Florido, Janet Frewing, Ginka Gavrillov, John Grenfell, Caroline Hutchings, Fen Johnson, Mary Legner, Bibiana Lopez, Gabriela Maerean, Valerie Merrill, Herbert Morales, Jeff Mulari, Gabriel Murillo, Kathy Nabours, James Namekata, Adam Navas, Ernesto Reyes, Kari Richards-Dinger, Andy Robles, Marc Sanchez, Jeff Warsinski, Jason Wong, and Zhi Yao

1. Introductions

- Shot outs
- Happy to go back to campus
- Difficult to teach while wearing a mask
- Grown in our teaching
- Only a Zoom Meeting away from each other
 - Meet more often via Zoom
- Adriana was just hired to tenure track
- Mountain Bike Jax Bicycle Center
- Service Awards via Drive-By

2. Change of wording in Catalogs for RCCD General Education lists (Plan A)

- Graduation requirements for the Associate Degree (RCC page 59)
 - VI. General Education Requirements
 - Plan A VI. Language and Rationality
 - 2. Communication and analytical thinking
 - Also see MVC page 42 and NC page 38
- Currently have Math 1-36 but will change to the following list
 - Mathematics: 1A, 1B, 1C, 2, 3, 5, 10, 11, 12, 12H, 15, 23, 25, 26, 32, 35, 36
- Math 15 is the Statway course
 - In RCC's catalog by never has been offered
 - Will leave in the Catalogs
- GE for the district
- This is for local degrees
- Math 53
 - MVC may be fading out Math 53
 - Faculty noticed the Calculus students are missing some of the skills from Geometry
 - Keep it on the list for it is the same level as Math 35
 - has a prerequisite of Math 52
 - CSET for the Geometry component
 - No harm adding it on the list
- **Motion: Under Plan A's Communication and analytical thinking add to the list Math 53. M/S/C Robles/Brown**
 - MVC Yes 10 approved
 - NC 5 Yes, 2 Abstain, approved
 - RCC 8 Yes, 3 Abstain, approved
- **Approved**

3. Curriculum

- Data Science COR's
 - Math 70A
 - Proposed to have prerequisite of Math 11 or Math 36
 - Need some sort of college level algebra course but Entry Level Skills are supported by Math 35
 - Math 35 shortens the path
 - Cross listed with CS
 - UCR's course is "Foundation of Data Science"
 - Focus on the STEM students could increase the prereq later on
 - Lag before they take Math 70B
 - Tech Review is June 1 next is in October
 - **Motion: Have Math 35 as prerequisite for Math 70A M/S/C**
Hutchings/Drake
 - MVC 10 Yes, approved
 - NC 10 Yes, 1 Abstain *Vote taken at a May 2021 department meeting*
 - RCC 8 Yes, 1 No, 4 Abstain approved
 - **Approved**
 - Math 70B
 - Our College Algebra is different more like Intermediate Algebra unlike other local CC's
 - UCR has their Math 5 which is similar to Precalculus
 - Will we use the agreement with UCR?
 - Transformations are in Math 35
 - **Motion: Have Math 10 or 23 and Math 70A as prerequisite to Math 70B**
Hutchings/Robles
 - MVC 9 Yes, approved
 - NC 5 Yes, 1 Abstain, approved
 - RCC 11 Yes, approved
 - **Approved**
- Noncredit
 - Since Intermediate Algebra is not a basic skills course, therefore the proposed mirrored Course did not move past Curriculum's Tech Review
- Other
 - Math 1A Honors
 - NC and RCC
 - To help STEM students
 - Mendoza is lead at RCC and Janet and Brian are leads at NC
 - Reached out to Honors Faculty at RCC to get the correct language
 - Math 10 & Math 23
 - How in Math 10 some topics we teach that are not needed in Calculus such as induction, etc.

- Replace with Affective Domain topics.
- Is it better for students to know fewer topics at a deeper level or to introduce them to more topics?
 - Streamline courses
 - Why are so many STEM students not getting through their Math classes
 - Don't want to water down material
 - Calculus survival skills
- How will it affect Math 23?
- Drake, Reyes, Chiek, Warsinki, and Mary will bring this back in the Fall

4. Equivalency Committee Representation

- **Motion: The RCCD Math Discipline representation for equivalency committees will consist of Richards-Dinger (MVC), Mulari (NC), and Reyes (RCC). M/S/C Brown/Drake**
 - Accepted by consent
 - **Approved**

5. RCCD Math section caps

- RCCD Task Force assembled to how disciplines could formally go through changing section caps
 - Task force reconvening in the Fall
- English has better success rates and lower class caps
- Look at what other colleges are doing across the state
- Request that faculty share any information they find on this topic
- Will the same class cap be for all our Math classes?
- *We are the rate limiting step in the district.*
- Cap set at 30 to 36
 - Class capacity is not the same as room capacity
 - Look at Math 37 success rates which may have a cap size of 36
 - Different way of teaching such as groups and emphasis on projects, etc.
 - Physical layout of classroom such as white boards on the sides of the classroom
 - For example 9 groups of 4
- **Motion: RCCD Math class cap be set at 30 to 36 depending on data. M/S/C Robles/Merrill**
 - Accepted by consent
 - **Approved**

MINUTES
Chemistry Discipline Meeting
June 11, 2021

In attendance via ConferZoom:

RCC: Leo Truttmann, Emily Spencer, Bobbie Grey, Jarrod Williamson, Wendy McKeen, Mike Dahl, and Stacie Eldridge

NC: Jody Tyler, Stan Tyler, Christopher Lugo and Virgil Lee

MVC: Siobhan Feeney and Daniel Bernier

10:06 AM Meeting Began

- Congratulations was in order on Wendy and Melissa achieving tenure.
- Announcement was made that Mike Dahl was the new full-time tenure track faculty hire for RCC.

Action Items:

- All three colleges voted in favor to approve listing out the Chemistry courses under Area A of the GE requirements. All three also were in favor of moving CHEM 17 to Area B of the GE requirements, despite NC and MVC not offering this course.

Discussion Items:

- Job Description: A discussion about revising the Basic Function section of the Chemistry (full-time tenure track/visiting professor/associate faculty) job description. It was suggested that a committee (2-3 people) get together and work on this for the upcoming year. Norco has something already in the works and Virgil emailed the document to everyone.

It was made clear that the Chemistry Discipline, as a whole, insists that once a job description has been submitted to H.R. and up the administrative chain, final approval must be by the faculty that make up the discipline and that this has to be the job description that is flown when an open position is posted. This has not always been the case in the past. Moving forward, careful consideration must be made to make sure this is how the process is done.

- Virgil volunteered to inquire if the job description is a district decision and we will proceed from there.
- Chemistry Diagnostic Exam: We have been strongly encouraged by the District Curriculum Committee that if we want to keep the Chemistry Diagnostic Exam as a prerequisite option for getting into CHEM 1A and 1AH, we add it to the COR. Much discussion ensued.
 1. A motion was made (Stacie/Emily) to increase the minimum threshold for passing the exam from less than 50% (22/45) to 69% (31/45). All approved.
 2. Another motion was made (Stacie/Leo) to add the Chemistry Diagnostic Exam to the COR for CHEM 1A/1AH as a prerequisite option, alongside CHEM 2A/3. All approved.
- Lab Course Caps: Norco is seeking support in their endeavor to decrease course caps for their Introductory Chemistry and General Chemistry courses from 32 to 25. They would like to follow the ACS guidelines for the purposes of equity and lab safety. All faculty from RCC and MVC were in support of this endeavor.
- Math Prerequisites: Math 12 and Math 25 are currently listed as an alternative route to meeting the Math 35 prerequisite for CHEM 1A/1AH. It has been strongly suggested by the Curriculum Committee that these two courses be removed from the IT side of CHEM 1A/1AH. This does not change the prerequisite or any outward facing information for the course and the only students blocked will be those without the necessary algebra coursework. Those students would need to take Math 35 prior to enrolling in CHEM 1A/1AH. All in attendance agreed that these courses should be removed from the IT side so students cannot use this loophole to get into CHEM 1A/1AH.

- Discipline Facilitator Need/Role/Replacement: As the current Discipline Facilitator, Stacie iterated that there is a purpose to having one for RCCD Chemistry. This is due to the occasional equivalency or curriculum matter that arises and the fact that our discipline is a cohesive one. We like to keep Chemistry issues consistent across the district, when appropriate. With that said, Stacie would like to step down next fall. She is soliciting for a replacement.

The next Discipline meeting will be during FLEX week in the fall.

Hi folks,

Attached are the approved chemistry discipline meeting minutes regarding how chemistry courses are listed in the RCCD GE requirements. We have approved listing out all of our courses under Area A with the exception of CHE 17. Chemistry 17 should be moved to Area B, Social and Behavioral Sciences, which will match CHE 17's location in the UC and CSU requirements.

Thank you!

Subject: Change in catalog presentation of General Education (RCC) courses

Greetings chairs,

The Academic Standards committee has created a transition plan to create uniformity and clarity in the way that our general education courses are presented in the catalog. Currently, on pages 43-44 in our catalog the RCCD Plan A Gen Ed plan has a mix in each area of courses that are listed out individually by discipline and number (anthropology 1 or 1H) and others that list the whole discipline (Astronomy). We are moving to a presentation that itemizes all the courses in that area. Your curriculum rep received this information at the April 27 meeting, but when I presented on this at the May 3 Senate meeting, I was asked to share with the department chairs as well.

Before your discipline leaves for the summer, we need disciplines to email techreview@rcc.edu and let us know that you have looked at the proposed lists (based on itemizing what was already in the catalog) and let us know if everything as listed is what should be in the catalog, or if there are any courses that as we expanded from a collective discipline name to specific courses, you now realize do not belong in the catalog as general education course. (For example, English is listed in Area C as a collective discipline, so when we expanded the list, English 1A was listed, but this shouldn't be an Area C course.) All gen ed courses must have gen ed SLOs linked to the course SLOs.

Attached is the list of courses (the boxed portion is what the catalog says now; the list below is the proposed change) and the Title V descriptions of what a class in this category should do to fit this category. I've also attached the directions for what we need, but it is a draft, and likely more detailed than is needed. We just need you to review your list and make corrections (or say good as is) and send us those corrections (techreview@rccd.edu) before the discipline closes shop for the summer.

Thank you,
Kelly

H **CIS 30C** **Python Programming in Cybersecurity**

Rationale: Per recommendation of CIS discipline, course major modification is needed to include general education SLOs to meet UC/CSU general education course articulation requirement. Change of course prerequisite, CIS-1A, to advisory will help increase student diversity and inclusion in this certificate. Course materials are also updated to include up-to-date resources and books as there has been changes to programming libraries and Python versions.

H **CIS 30D** **Python Programming for Internet of Things (IoT)**

Rationale: Per discipline recommendation, this major modification includes general education SLOs to meet UC/CSU requirement for articulation. Textbook and course materials are also updated due to changes in Python versions and libraries.

H **CIS 30E** **Advanced Python Programming**

Rationale: Per discipline recommendation, course major modification includes general education SLOs to meet UC/CSU articulation requirement. This modification also includes course materials updates as Python version and libraries have changed.

H **ESL 65** **American Classroom Culture** Content is one level. Entrance skills may need to be reviewed. NOR has been added.

Rationale: The purpose of this modification is to conduct a standard review of content, update texts, add new course objectives, and align to new course sequence.

H **ESL 95** **Pronunciation and Accent Reduction** Content is one level. Only has one SLO, but may be appropriate for the course. Entrance skills may need to be reviewed. MOV has been added.

Rationale: ESL is revising the support courses to align with the new sequence of core ESL courses which were revised to align with AB705 recommendations. In addition, advisories and textbooks are being updated.

FIT CFO3A **Human Resources Management Chief Fire Officer**

Rationale: Designed to provide students with knowledge of the human resource requirements related to the roles and responsibilities of a Chief Fire Officer including developing plans for employee accommodations, developing hiring procedures, establishing personnel assignments, and developing a measurable accident and injury program. This course is essential in the professional development of senior fire officers.

FIT CFO3B **Budget and Fiscal Responsibilities Chief Fire Officer**

Rationale: This California State Fire Training course is designed to provide senior fire service officers with information on the roles and responsibilities of budgeting for a Chief Fire Officer. This includes developing a budget management system, a department budget, and also elaborates on the process for ensuring competitive bidding.

FIT CFO3C **General Administration Functions Chief Fire Officer**

Rationale: This course is required by California State Fire Training to help senior fire officers progress to the rank of Chief Officer.

FIT CFO3D **Emergency Service Delivery Responsibilities**

Rationale: This course required by California State Fire Training ensures senior fire officers have the education needed to promote to advanced leadership positions.

FIT CO2A **Human Resource Management**

Rationale: This professional development course developed through California's Office of State Fire Training is designed to provide information for Company Officers on the use of human resources to accomplish assignments, evaluate members performance, supervising personnel, and integrating health and safety plans, polices, and procedures into daily activities as well as the emergency scene.

FIT CO2B **General Administrative Functions**

Rationale: Designed by California's Office of State Fire Training to provide professional development and training for Firefighters on general administrative functions and the implementation of department policies and procedures. The course also addresses conveying the fire department's role, image, and mission to the public.

FIT CO2C **Fire Inspections and Investigations**

Rationale: This California State Fire Training Course is designed to provide students with information on conducting inspections, identifying hazards and fire code violations while performing a fire investigation to determine preliminary cause. It will also discuss securing an incident scene while preserving evidence.

H **CIS 68A** **Introduction to Machine Learning**

Rationale: This course is part of Data Science and Data Analytics program. It introduces students to concepts and theories of Machine Learning to prepare students of coursework and career in Computer Science and Data Science. The knowledge and skillsets provided in this course will help student prepare for STEM workforce. This course also aims to increase student population diversity in STEM by providing computational and statistical skills that will help learners build careers in data analytics, programming and engineering.

H **CIS 68B** **Big Data Fundamentals**

Rationale: This course is part of the Data Science A.S degree and Data Analytic certificate programs. This course is aimed to build data analytic skills that will help student establish their career and/or prepare students for university studies in Data Science. This course promotes STEM education that will aid in creasing technical workforce diversity in Inland Empire region.

H **CIS 70A** **Foundations of Data Science**

Rationale: Foundations of Data Science will attract students to the Data Science Certificate and Program. They will be exposed to an industry-leading programming language and statical inference for data driven decision-making. This course will prepare students to be successful in Statistics for STEM and Introduction to Python. The Data Analytics Certificate and Associates Degree in Data Science prepares students for Junior Data Analyst positions. The U.S. Bureau of Labor Statistics reports that the demand for data science skills will drive a 27.9 percent rise in employment in the field through 2026. Data Scientist make businesses grow better and are the backbone of data-intensive companies.

H **CIS 848A** **Cloud Computing Fundamentals**

Rationale: This course mirrors another credit course that is part of the Cloud Administration certificate, which aims to develop technical skills for students who are interested in pursuing cloud-based support positions in the IT industry. With the increasing demands for cloud services, cloud security is an essential area of cloud computing as it emphasizes asset protection and maintenance. Rationale: Rationale for the changes to the Welding Technology Certificate of Achievement and Degree is to ensure courses within the discipline are utilized concurrently with the courses in the individual smaller certificate patterns. These courses may be used as either required or elective courses within multiple Welding Certificate patterns. The two additional elective courses proposed in the Welding Technology Certificate/Degree pattern will simultaneously allow students to utilize the proposed courses in the smaller certificate options as well as giving them the skill to obtain employment and then continue taking courses to achieve the larger Welding Technology Certificate or Degree. We are also removing the WEL-34 class as it has been deleted.

Program Narrative

Item 1. Program Goals and Objectives

Upon successful completion of the course, students should be able to demonstrate the following activities:

1. *Read Architectural documents and blueprints*
2. *Prepare a visual 3D presentation inside or outside a building for potential clients*

Item 2. Catalog Description

The Essential 3D Tour program prepares students with the knowledge and skill in reading Architectural documents and blueprints with technics in presenting an existing building in a three-dimensional virtual tour for later remodeling or design. Students learn to set and use advanced building scanner/camera and drones in presenting spatial aspects of building in a virtual walkthrough or virtual fly around the building and landscapes.

Item 3. Program Requirements

Building Scanner, Camera and virtual tour software will be provided by college. Students need a software access and a computer for home assignments.

Required Courses: units

This program prepares students with the knowledge and skill in using Autodesk Revit Architecture for building Information Modeling on computer to document building information and drawings with architectural details. Students learn to render their architectural design and present solar study using Revit.

Item 3. Program Requirements

Software is free to students and college. Computer will be accessible by college. Students may use their home computer for homework..

Required Courses: ____ units

Course	Title	Units	Sequencing
ARE-24	Revit I-Architectural Drafting	3	Semester 1, Fall
ARE-25	Revit II-Advanced Architectural Drafting	3	Semester 2, Spring

Elective Courses: ____ units

Course	Title	Units	Sequencing
None			

Total Program Units: 6 units

Item 4. Master Planning

This certificate serves our students by providing a unique educational opportunity with a cutting edge technology to a diverse group of talents in creating job opportunity for students, entrepreneurs and professionals who need to update their skills in the architecture drafting field.

Item 5. Enrollment and Completer Projections

34 per semester

Item 6. Place of Program in Curriculum/Similar Programs

Currently we have Architectural Graphics certificate that students can use all these units to continuing their education.

Item 7. Similar Programs at Other Colleges in Service Area

Norco college already has these two courses as a part of a larger certificate, Architectural Graphics. B.I.M. (Building Information Modeling) and CADD by Rio Hondo College

Item 8. Transfer Preparation Information (if applicable)

Upon completion students can continue their education in Architecture program.

 New Local certificate Modification to an existing local certificate

If this is a modification to an existing certificate/degree, please specify the changes being made:
(Please be specific! Indicate any changes to title, description, learning outcomes, courses, unit values, etc.)

Rationale:

This program addresses industry’s continuing demands for professionals to test and build tools to meet the data quality validation needs for a cloud platform-based application and building enterprise analytics of large data volume. Based on Inland Empire/Desert region Labor Market Information report, the data-analysis occupation is projected to have 189 annual job openings, increasing employment by 8% through 2024. The 10th percentile hourly wage for data analysis related occupations exceeds the Family Needs Calculator self-sustainability rate, indicating that approximately the top 90% of workers in this occupation earn self-sufficient hourly wages. The courses in this program will also align with university courses, which will permit students to transfer to further develop skills and knowledge in the areas of Data Science.

Required Documentation

Please submit this form and the documents outlined below to your college coordinator and the District Technical Review committee via TechReview@rccd.edu. Please do not submit your proposal until all of the documentation below is complete.

Degrees and Certificates of 8 Units or More with Vocational TOPs Codes

In addition to the above, all degrees and certificates of 8 units or more with a vocational TOPs code must include the following to be submitted to the State Chancellor’s Office for approval.*

- Labor Market Information and Analysis *(required for new programs and modifications; also be recent within 2 years).*-
- Advisory Committee Recommendation *(Required for new programs and may be required for modifications. Check with the curriculum coordinator at your college to determine if a new recommendation is necessary.)*
- Regional Consortium Recommendation *(required for new programs only)*

**While certificates between 8 and less than 16 units can be approved locally and are not required to be submitted to the State Chancellor's Office for approval, certificates that have not been approved by the State Chancellor's Office cannot appear on student transcripts and the college cannot receive apportionment for program completions. Additionally, any certificate of less than 8 units can only be approved locally. These certificates also cannot appear on student transcripts and colleges cannot receive apportionment for completion.*

Program Narrative

Item 1. Program Goals and Objectives

Data Analytics Certificate of Achievement provides students with a foundation in data analysis, in which students will model, synthesize, and present large data sets for business decision making. Courses will focus on the techniques and tools to extract data from various data sources, model, integrate data, and visualize data for organizational decision making and intelligence gathering. The program prepares students for entry-level jobs, or to help them advance into careers, such as Operation Data Analyst, Business Analytics Specialist, System Data Analyst, Data Visualization Developer, Test Data Analyst, and Market Research Analyst. Topics covered will include statistics, research methods, SQL queries, systems analysis, design, and applied predictive analytics.

Program Learning Outcomes:

Upon successful completion of this program, students should be able to:

- Identify, extract, clean and maintain data in databases.
- Interpret and evaluate data trends or patterns in complex data sets using statistical techniques, analytic methods, and tools.
- Create and monitor reports to preserve data quality, identify critical issues, trends, and potential solutions.

The **Certificate of Achievement in Data Analytics** will be awarded upon completion of the degree requirements, including general education and other graduation requirements as described in the college catalog.

Item 4. Master Planning

This cross-discipline certificate will increase the diversity in Inland Empire workforce by providing technical training emphasis in Career Technical Education. This program will increase the diversity of student population in STEM, Computer Information Systems and Mathematics, aligning with Guided Pathway to support student success. The growth of the program will also address to need to improve special populations in STEM, such as potentially increasing the population of female students and professionals in the areas of STEM. The program is expected to have a steady growth after the initial year with program promotional outreach to local high schools and community centers.

Item 5. Enrollment and Completer Projections

Enrollment Projects for courses are as followed:

Required courses:

- CIS-1A: 49 students
- MAT-27B: 49 students
- CIS/CSC-61: 49 students
- CIS-30A or CSC-8: 49 students
- CIS-68A/MAT27A: 49 students
- CIS-68B: 49 students

Electives:

- CIS-68C: 49 students
- CIS-2: 49 students
- CIS-20: 49 students

This program is expected to have 50 to 100 students by Spring 2023.

Item 6. Place of Program in Curriculum/Similar Programs

Most of the courses in the program are active courses that are currently offered at all three campuses in RCCD. The new courses will be incorporated into the program seamlessly. No other programs are similar or the same as the proposed Data Analytics program.

Item 7. Similar Programs at Other Colleges in Service Area

No other college in the region offers similar program. This program offers opportunities for students to acquire technical training that will help them build careers and contribute to Inland Empire social-economic improvement. It also provides local organizations access to a growing workforce and training resources for their incumbent workers.

Item 8. Transfer Preparation Information (if applicable)

Existing courses have been articulated for UC and CSU transfer. New courses can be articulated as transferrable courses at University of California Riverside, California State University San Bernardino, Cal-Poly Pomona, and other institutions. The courses in this certificate can be used toward Associate Degree to Transfer for Data Science for UC and CSU.

Program Narrative

Item 1. Program Goals and Objectives

Associate Degree of Science in Data Science provides students with a foundation in data analysis, in which students will model, synthesize, and present large data sets for business decision making. Courses will focus on the techniques and tools to extract data from various data sources, model, integrate data, and visualize data for organizational decision making and intelligence gathering. The program prepares students for entry-level jobs, or to help them advance into careers, such as Operation Data Analyst, Business Analytics Specialist, System Data Analyst, Data Visualization Developer, Test Data Analyst, and Market Research Analyst. Topics covered will include statistics, research methods, SQL queries, systems analysis, design, and applied predictive analytics.

Program Learning Outcomes:

Upon successful completion of this program, students should be able to:

- Identify, extract, clean and maintain data in databases.
- Interpret and evaluate data trends or patterns in complex data sets using statistical techniques, analytic methods, and tools.
- Create and monitor reports to preserve data quality, identify critical issues, trends, and potential solutions.

Program Narrative

Item 1. Program Goals and Objectives

For programs with a vocational TOPs code, must address a valid workforce preparation purpose. For programs with a non-vocational TOPs code, must address a valid workforce preparation, basic skills, civic education, or local purpose. May address transfer preparation if applicable.

Upon completion of this program, students will be able to:

1. Recognize the types of natural, manmade, and technological hazards that can negatively impact a community.
2. Compare and Contrast various forms of National and International Terrorism.
3. Distinguish the fundamental roles and responsibilities of the professional emergency manager.
4. Demonstrate skills necessary to prepare for, mitigate, respond to, and recover from manmade and natural disasters.
5. Demonstrate an understanding of the role of Ethical Leadership in the Homeland Security Enterprise.

Item 2. Catalog Description

Includes program requirements, prerequisite skills or enrollment limitations, program learning outcomes, and information relevant to program goal.

The Emergency Management and Homeland Security - Leadership concentration prepares students to be leaders in homeland security and emergency management. The curriculum is designed to provide the learner with a foundation of technical and professional knowledge to meet local, state, and national safety responsibilities both in the public and private sectors. The program emphasizes an All-Hazard approach to emergency planning and management, with courses in preparedness planning, risk mitigation, emergency response and disaster recovery. Students who successfully complete the program will gain entry-level employment in the fields of emergency management, homeland security, law enforcement, fire service, urban planning, security management, information security, business continuity, and other service-related occupations. The concentration in Cyber Security is specifically designed to prepare Cyber Security Professionals to operate in the complex world of Emergency Management and Homeland Security.

Item 4. Master Planning

Must address how the certificate/degree fits in the mission, curriculum, and master planning of the college and higher education in California.

This associate degree program aims to increase the diversity in Inland Empire workforce by providing technical training emphasis in Career Technical Education. This program will increase the diversity of student population in Emergency Management and Homeland Security. The growth of the program will also address to need to increase special populations in Emergency Management and Homeland Security, such as potentially increasing the population of female, Hispanic, African American students and professionals. The program is expected to have a steady growth after the initial year with program promotional outreach to local high schools and community centers.

Item 5. Enrollment and Completer Projections

Projection of number of students to earn certificate/degree annually.

It is projected that 25 students will complete this certificate annually, with a 2-3% increase annually.

Item 6. Place of Program in Curriculum/Similar Programs

Must address how the certificate/degree fits in college's existing inventory.

All of the classes necessary are currently in the college inventory. This will allow for another pathway for our students to earn a degree and/or certificate.

Item 7. Similar Programs at Other Colleges in Service Area

Justification of need for certificate/degree in the region.

No Colleges in the Inland Region offer similar programs. The following colleges offer Degrees/Certificates in Homeland Security or Emergency Management:

Cerritos

Citrus

Coastline

Grossmont

Palomar

Cypress

Rio Hondo

Item 8. Transfer Preparation Information (if applicable)

Item 4. Master Planning

Must address how the certificate/degree fits in the mission, curriculum, and master planning of the college and higher education in California.

The Instructor Training program prepares students for the employment of postsecondary cosmetology instruction. Typically, community college instructors require more education and work experience than private training providers. The typical combination of work experience for community colleges is a bachelor's degree and between two and five years of relevant work experience or an associate degree and six years of relevant work experience.

Work Experience Requirements: More than half (21) of the job ads for cosmetology instructors included a minimum work experience required figure. Of the ads with a work experience requirement, 85% are looking for candidates with three or more years of experience.

Years of Work Experience Required Job Ads

0 to 2 years 14%

3 to 5 years 43%

6 to 8 years 43%

Certifications: Only 21 of the 39 job ads for cosmetology instructors included a required certification. A valid California cosmetology license was the most frequently requested certification over the past twelve months. Job ads with this certification requirement typically were seeking candidates with a low level of education and combined work experience, when compared to community college requirements. Many of the community college job advertisements did not include required certifications as they primarily focused on education and work experience as a way to gauge job competency.

Advertised Earnings: The average real-time salary is \$56,000 and the median real-time salary is \$44,000. This information should be viewed with caution as it only represents 49% of job postings.

Item 5. Enrollment and Completer Projections

Projection of number of students to earn certificate/degree annually.

Potential number of completers annually 60-80 completers.

Item 6. Place of Program in Curriculum/Similar Programs

Must address how the certificate/degree fits in college's existing inventory.

The courses offered with this Instructor Training program could be post cosmetology education. Upon the completion of the cosmetology program, students could enroll in Instructor Training Program.

Item 7. Similar Programs at Other Colleges in Service Area

Justification of need for certificate/degree in the region.

Few community colleges offer an Instructor Training Program, Fullerton College offers an Instructor Training program.

Program Narrative

Item 1. Program Goals and Objectives

The Musical Theatre Program is a dynamic training experience for students who seek a professional career in Musical Theatre. The curriculum is fundamentally craft-based, offering rich and intensive courses in singing, acting, music, and dancing. We also have a commitment to bringing in guest artists and other visiting professionals to complement our existing curriculum. Our comprehensive course of study requires that students who successfully complete the program must be motivated, committed, hard-workers, as well as gifted. Students must demonstrate continued progress and development and pass ongoing faculty evaluations in order to remain in the program. Performance opportunities include Performance Riverside, a semi-professional theatre located on the campus of Riverside City College, which is home to a season of three productions each year, and, our flexible black box space which produces 1-2 productions each year.

These are additional electives that are also tied to the Pipe Welding certificate.

Removal of the WEL-34 as it has been officially deleted and is no longer taught.

Rationale:

(Please note: This information will be presented to the Board of Trustees.)

Rationale for the changes to the Welding Technology Certificate of Achievement and Degree is to ensure courses within the discipline are utilized concurrently with the courses in the individual smaller certificate patterns. These courses may be used as either required or elective courses within multiple Welding Certificate patterns. The two additional elective courses proposed in the Welding Technology Certificate/Degree pattern will simultaneously allow students to utilize the proposed courses in the smaller certificate options as well as giving them the skill to obtain employment and then continue taking courses to achieve the larger Welding Technology Certificate or Degree. We are also removing the WEL-34 class as it has been deleted.

Item 1. Program Goals and Objectives

Mission of Riverside City College: Riverside City College provides a high-quality affordable education and engages with a diverse community of learners by offering pre-college, transferable, and career-technical courses leading to locally-approved and state-approved certificates, associate degrees, associate degrees for transfer, and transfer. Based on a learner-centered philosophy, the College fosters critical thinking; develops information competency and technological literacy; expands communication skills, and promotes self-development and global awareness. To encourage student success, the College provides comprehensive learning and student support services; co-curricular activities; and community and Arts programs. RCC supports and empowers students as they work toward individual achievement, intellectual curiosity, and life-long learning.

This Welding Technology certificate/degree is being modified to include pipe Fitting and Layout knowledge for the welding student. These additional skills allows the student to better understand the methods and rational for the installation of piping that is constructed by the use of GMAW and SMAW. By adding these components, the student will more suited for multiple roles in the welding industry.

The added electives are currently required classes for the Pipe certificate and offer the student to flexibility to use the classes toward their AS degree in Welding. By making this modification we will better serve local business and the community, which aligns with the mission of the college.

Item 2. Catalog Description

This program prepares individuals to apply technical knowledge and skills for joining and cutting metallic materials. This includes instruction in SMAW, FCAW, GMAW, GTAW welding processes; oxyacetylene and plasma cutting of ferrous and non-ferrous materials. Includes, welding metallurgy, structural welding safety, blueprint reading, and applicable codes and standards. These skills prepare students for the following careers: iron worker trade, pipe welding trade, steel worker trade, construction trades, aerospace industry, pile driver trades, and glazing trades

- Display the ability to work safely within the welding industry
- Obtain skills necessary to obtain an entry-level job within the welding/construction industry.
- Demonstrate knowledge of SMAW, FCAW, GMAW, and GTAW welding processes.
- Obtain skills necessary to properly set up equipment used in the various welding processes.
- Obtain skills needed to pass AWS skills test to become a certified welder

Item 3. Program Requirements

Includes course requirements and sequencing that reflect program goals. For degrees, the GE pattern and calculations used to reach the degree total must be shown following the program requirements table. Course titles and unit values must be exact.

Required Courses: 23 units

Course	Title	Units	Sequencing
WEL-20	Blueprint Reading for Welders	2	Semester 2, Spring
WEL-65A	Beginning Shielded Metal Arc Welding (SMAW)	3	Semester 1, Fall
WEL-65B	Advanced Shielded Metal Arc Welding	3	Semester 1, Fall

**Record –
 Credit Degrees and Certificates**

WEL-75A	Gas Metal Arc Welding (GMAW)	3	Semester 1, Fall
WEL-75B	Flux Cored Arc Welding (FCAW)	3	Semester 1, Fall
WEL-85A	American Welding Society/Los Angeles City Welding I	3	Semester 3, Fall
WEL-95A	Introduction to Gas Tungsten Arc Welding	3	Semester 3, Fall
WEL-115A	SMAW/GMAW Pipe welding Fundamentals	3	Semester 2, Spring

Elective Courses: 5 units

Course	Title	Units	Sequencing
WEL-22	Plate and Structural Steel Layout	2	Semester 2, Spring
WEL-24	Pipe Fitting for the Trades	2	Semester 2, Fall
WEL-26	Pipe Layout	2	Semester 1, Spring
WEL-85B	American Welding Society/Los Angeles City Welding II	3	Semester 4, Spring
WEL-95B	Advanced Gas Tungsten Arc Welding	3	Semester 3, Fall
WEL-200	Welding Work Experience	1-4	

Total Program Units: 28 units

Minimum Degree Requirements		Maximum Degree Requirements	
Minimum Required Units	23	Maximum Required Units	23
Minimum Elective Units	5	Minimum Elective Units	5
Local GE Required Units	27	CSUGE Required Units	39
Double Counted Units	0	Double Counted Units	0
Total Minimum Degree Units	60	Total Maximum Degree Units	67

Item 4. Master Planning

Must address how the certificate/degree fits in the mission, curriculum, and master planning of the college and higher education in California.

Adding these additional elective courses allows the student to be more suited for multiple roles in the general welding/piping industry. By making this modification we will better serve local business and the community, which aligns with the mission of the college.

Item 5. Enrollment and Completer Projections

**Record –
Credit Degrees and Certificates**

Projection of number of students to earn certificate/degree annually.

The projection is to have 10-15 completers annually to begin and a slow steady growth of that number as the program is discovered.

Item 6. Place of Program in Curriculum/Similar Programs

Must address how the certificate/degree fits in college's existing inventory.

Currently in the Welding Discipline.

Item 7. Similar Programs at Other Colleges in Service Area

Justification of need for certificate/degree in the region.

In our service area there are 3 other training facilities that teach welding. Two of these are for profit facilities, Universal Technical Institute (UTI) and Summit, that carry high costs associated with them and one is another community college, San Bernardino Valley College. In our service area RCC is the only college that currently has a pipe certificate program. While San Bernardino Valley College and one of the for-profit schools has 1-2 pipe welding classes they do not have pipe fitting or pipe layout classes.

Item 8. Transfer Preparation Information (if applicable)

If transfer preparation is a component of the certificate/degree, please provide transfer preparation information.
