   c. Approved, Unanimous
2. Approval of Minutes - September 21, 2021
   a. 1st K. Douglass, 2nd B. Johnson
   b. Approved, Unanimous

Action Items

1. Curriculum Proposals
2. AB 361 Approval
   a. 1st A. Pfeifle, 2nd B. Johnson
   b. Approved, Unanimous

Discussion Items

1. GE Catalog Update
   a. Bryan Nicol – Forms and minutes have now been received for any disciplines seeking to add a course to any area of the RCCD GE pattern. ADJ is also proposing courses for the GE pattern, which will be the first in the discipline to be included.
   b. The chairs agreed to reach out to representatives from the remaining disciplines to obtain their feedback.

2. Honors Contract Courses
   a. Ann Pfeifle – At Moreno Valley, two students have signed up for ENG-1AH as a contract course. It has been made clear that while they will get credit for ENG-1A as a part of completing their series of required honors courses, the course will not appear as 1AH on their transcript.
      i. Kelly Douglass – Even though we have ENG-1AH in the catalog?
      ii. Ann Pfeifle – This was interpretation from based on Tucker Amidon's feedback.
      iii. Kelly Douglass – Because the course exists in the catalog it can appear as honors on the transcript, but Tucker Amidon had stated that RCC specifically has made the decision not to do this. Students can also have contracts for classes that do not have an honors version, but the transcript will not show the course with an H. From a curriculum perspective this is exactly right, and students should only have something on their transcript that exists in the catalog. They will be certified as having finished their honors slate of courses, but it will not appear as an H on the class.
   b. Ann Pfeifle – The language in our COR specifies certain things that designate it as an honors course. Do we need to change the language on the honors CORs to allow for contract courses? In the case above, the faculty is meeting with students, which is fulfilling the seminar format component.
      i. Kelly Douglass – The only thing different is a seminar discussion. One suggestion would be that next time they revise the courses with language like "seminar courses except in the case of contract where student will meet with professor." However, the Honors council may need to discuss. Riverside has taken position that if the course exists they will not allow for contract courses. It may be a problem to add the contract language into the COR when it is shared across the district.
   c. Ann Pfeifle – Will notify the honors councils to discuss and bring a recommendation forward to curriculum, specifically how they are handling contract courses and if the COR needs to be revised.
   d. Brian Johnson – An important part of being in an honors class is to be with other honors students to have the seminar discussions.

3. Removing Cross Listed Courses Discussion – Ellen Brown-Drinkwater
   a. Ellen Brown-Drinkwater – Specifically for those disciplines who submitted for

CSU Area F approval that were not approved, what is the process going to be in the event that they decide to un-crosslist their courses?

b. Nick Franco – Years ago, GAM and CIS decided to un-crosslist their courses, and this created problems in degree audit. The courses were the same in one year, and then the next they were not for degree purposes. It may be better to delete one version of the course.

c. Kelly Douglass – The disciplines will need to discuss and both will need to modify their courses because they can no longer be the same. Non-ETS courses need to remove the core competencies so that it is no longer and ETS course, and ETS would need to remove anything that is not specific to ETS. They cannot remain the same and cannot retain discipline specific and exclusive material in one another's courses. They will need to launch as major modifications.

d. Casandra Greene – In Colleague, courses can never be uncrosslisted.

e. Bryan Nicol – How will courses be applied in degree audit once they are un-crosslisted?

f. Kelly Douglass – That may need to be on a case by case basis.

g. Ann Pfeifle – If the newer course has never been offered, then we should be ok. The course that has existed in the district longer should be able to retain its number.

h. Nick Franco – If a new course is being proposed, that course will also start over with articulation. If a course is just being modified, it will retain articulation.

4. Non-Credit Outside of Class Hours – Kelly Douglass
   a. To clarify the discussion from the previous meeting, the committee discussed that for non-credit outside of class hours, mirrored courses will be cleaned up clerically, but any non-mirrored courses will need to be proposed for a modification. Some courses that are variable hour will also need to have variable outside of class hours if appropriate.

5. Meta Updates – Bryan Nicol
   a. Meta has indicated that cross discipline can be listed on the COR.
      i. The committee agreed to remove the originator at the top of the COR and to replace with cross-discipline.
   b. The chairs had notified Bryan that it was not possible to search for programs by discipline on the approvals page. Meta has said that it is possible to assign programs to disciplines and they will begin working on this.
   c. We currently do not indicate if a course is approved as an extensive preparation lab. Should we, and how should we go about doing this?
      i. The committee agreed to have a field on the Codes and Dates tab that is only accessible by admin users in the system. The designation should also appear on the COR near where the hours and units are listed.

6. COCI Approval Timeline – Bryan Nicol
   a. The State Chancellor's Office has informed us that they are now four months behind in their program reviews. This means the new ADTs, modified ADTs, and

new CTE programs approved at the December deadline may not be approved by the State Chancellor's Office in time for publication.

   b. Ann Pfeifle – Will we be able to use addendums to address this?
   c. Jeannie Kim – We can, but due to the transition to the new ERP we would want to have the published catalog be as accurate as possible. We will generate an email to send to State Chancellor's Office to alert them and we will see what kind of response we get.
