Agenda and Minutes

1. Approval of Agenda
 Motion: A. Pfeifle; Second: B. Johnson
 Addition of Discussion Items:
 Major and Minor Mod Renewals;
 Noncredit English and Math AB 1705 Rules;
 Modifications to AOE's and GE's
 Approved, Unanimous

2. Approval of Minutes – September 5, 2023
 Motion: A. Pfeifle; Second: K. Douglass
 Approved, Unanimous

Action Items

1. Curriculum Proposals

Discussion Items and Public Comment

1. Major and Minor Mod Renewals – Kelly Douglass
 - a. There are a variety of regulatory bodies that require curriculum review that do not align with one another. Per Title 5, CTE courses must be reviewed every two years, and courses with prerequisites or advisories must be reviewed every six years. ACCJC also requires periodic review. Locally, we require program review every three to five years.
 - b. What we have communicated to faculty in the past is that CTE courses must be reviewed every two years, but must receive a new Board date every five years. Does this mean faculty must perform a major modification every 5 years?
 - i. Ann Pfeifle – Assumed the local process was a major modification every 5 years to comply with the Title 5 six-year requirement.
 - ii. The committee agreed this was correct.
 - c. Kelly Douglass – How do we support faculty who are trying to ensure curriculum is in compliance with all the regulatory bodies?
 - d. Bryan Medina – Is there a reason why we cannot submit minor modifications to the Board of Trustees so they obtain a new Board date?
 - i. The committee discussed the above recommendation as a solution. To change the local process, the chairs agreed to take the topic to their college senates, and then it should be taken to the District Senate for approval.
 - e. Casandra Greene – Does this mean the review timeline is based on submission date to submission date? Is it from catalog year to catalog year?
 - i. Kelly Douglass – If all items are going to the Board of Trustees, then it would be 24 months from the Board date.
 - f. Janet Lehr – If a class is already regularly updated every two years and relies on content or curriculum that is federally approved and mandated, there are times where no updates are required to the COR. Does this mean the process for review would be launching a major modification in Meta with no changes?
 - i. The committee discussed the differences between minor modifications and major modifications. As long as any prerequisites and advisories are being reviewed by the discipline when they perform a minor modification, a course could go through minor modifications in perpetuity.
 - g. Brian Johnson – We may want to look at removing minor modifications entirely.
 - i. The committee discussed the recommendation. One positive benefit to minor modifications is that it eases the workload on the college curriculum committee. However, the college curriculum committee could also be trained on using the abridged comparison report in Meta.
 - h. Brian Johnson – Is there a way we can change our policy on what a minor mod is to allow for additional edits?
 - i. Bryan Medina – Technologically, the fields are either editable or read-only.
 - ii. Kelly Douglass – We would need to be worried about the degree of change.
 - i. Brian Johnson – Is there a situation where the committee would need to review a minor modification given what could be changed?
 - i. Kelly Douglass – Perhaps if someone removed something substantive. Most faculty use minor modifications for the CTE updates. May need to think of a process for that.
2. Noncredit English and Math AB 1705 Rules – Kelly Douglass
 - a. VP Wright and Kelly Douglass have been discussing noncredit basic skills courses for English and math in light of some information received at the Curriculum Institute. Noncredit allows Basic Skills as one of the 10 noncredit categories, but AB 1705

- specifically states you cannot have a noncredit course unless the student is concurrently enrolled in a transfer course the noncredit course is supporting.
- b. Brian Johnson – Understood that if you have the disclaimer that being in one of those courses does not statistically improve chances for success, you could offer the course.
 - i. Kelly Douglass – That may have been possible under AB 705, but that may also be why AB 1705 was established.
 - c. Kelly Douglass – As an example, ENG 802 is a Basic Skills course that requires students to also be enrolled in ENG 1A. ENG 885 is a separate course that just supports anyone in their English skills in any transfer level course. However, it is written as an open access course, which apparently is wrong.
 - d. Kelly Douglass – What needs to be listed on the COR to comply with AB 1705? Also, how do we configure this in Colleague?
 - i. Steven Schmidt – It may be a limitation on enrollment.
 - ii. Bryan Medina – Given the type of limitation, there may be several ways we can approach it in Colleague. If the limitation indicates some sort of specific set of courses, such as “any course with a writing requirement,” we will need to know what those specific courses are.
 - e. Ann Pfeifle – Initially to have the writing support, you had to be enrolled in an English course. A student couldn’t go to the English lab without it. Then ILA 800 was created and anyone could go to the writing lab.
 - i. Kelly Douglass – ILA 800 does give access to the writing lab, but ENG 885 has a small one-on-one instructional component.
 - f. Brian Johnson – There is a large population of students in mathematics that cannot handle a college level math course and there’s nowhere for them to go.
 - i. Kelly Douglass – Based on AB 1705, it seems that for math, the students must be enrolled concurrently in a math course.
 - g. Susan Mills – Can you write a general noncredit course and require a corequisite to any one of the math courses?
 - i. Kelly Douglass – Considered this as a possible solution. The timing issue is perhaps the most relevant.
 - h. Brian Johnson – The law stated the intent was to find data that shows it works, and if we see in the data that the placement changes are not working, that allows us to do something else.
 - i. Kelly Douglass – You have to show data that students were less likely to succeed, and the data shows this is not the case.
3. Modifications to AOE and GE – Kelly Douglass
- a. At the last District Academic Standards meeting, the process for AOE and GE modifications was discussed with a proposal to return to the first and second reading model that had been done in the past.
 - b. Bryan Medina will create a possible timeline with the goal of aligning with our existing curriculum submission deadlines. The modifications for AOE and GE could then go to Tech Review, followed by the College Curriculum level, where it would remain until the final college meeting of the fall term to allow for discussion. It would then move to the final DCC of the fall term and to the next possible Board of Trustees meeting.
 - c. The committee discussed how to determine which discipline is responsible for assessment and performing program review of the AOE, and agreed that the first step could be discussing the AOE with the assessment committees.
 - d. Kelly Douglass – For ADTs, do the courses have to be in the college’s inventory?
 - i. Ellen Brown-Drinkwater – Yes, but we can do a substitution if the student took an applicable course somewhere else.

- e. Brian Johnson – Could we ask the disciplines that they have to limit the appropriate courses in any of the AOE's?
 - i. Steven Schmidt – Could be problematic because if it's an AOE that involves performance, for example, MUS lists all of the applicable courses.
 - ii. Kelly Douglass – The KIN AOE is another example that has a large number of KIN courses that can be used to complete the program.

- 4. Public Comment for all items on or not otherwise on the agenda.
 - a. None.

Adjournment: 4:14pm
