Course Deletions

		M	N	R	Discussion	Action
	CAT 34A Introduction to Word	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>		
	Rationale: This stand-alone course has not been offered in over 5-years. Other credit courses in Microsoft Word are regularly offered and successfully make enrollment.					
	CIS 26D Cisco Networking Academy 1D	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>		
	Rationale: Cisco Networking (CE920) modification has been submitted as well. This program is mapped to the Cisco Networking Academy path for the Cisco Networking Associate industry certification. Cisco recently consolidated the course materials into three courses instead of four. This fourth course is no longer needed, and enrollment has been severely impacted as students are aware of this change. This has been discussed with our Business and Industry Leadership Team (BILT) and they are in agreement. Program Impact: The CIS-26D course is being submitted for deletion as it is no longer needed for the program.					
H	CIS 28A MS Access Programming	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Awaiting associated MOV program.

H	PSY 48 Rationale: PSY/SOC-48 is modified to be a 4-credit instead of a 3-credit hour course. UCs (e.g., UCR) and CSUs (e.g., CSUSB) devote more credit hours for their behavioral science statistics courses than their other (non-methods) psychology/sociology courses. The content of the PSY/SOC-48 COR was originally designed, in part, to reflect the behavioral science statistics courses offered in UCs and CSUs. The course is more likely to be transferable to these schools if it is increased from 3 to 4 units. Course materials and advisories have also been updated.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	Course is crosslisted with SOC 48. H ADJ 26 [Ethics and Leadership](#)

Rationale: New course creation for the partnership with the Riverside County Sheriff's Department and allied agencies. Rationale: The field of forensic and crime scene investigations is becoming increasingly independent from a standard criminal investigation, including best practices calls at state and federal levels to maintain crime scene investigations as a specialized area, with increasing professional industry practices of employing civilians as evidence specialists, technicians, and crime scene investigators (CSIs). This new course, ADJ-28 Crime Scene Investigation, utilizes the current best practices and industry recommendations, allowing for students interested in specializing in this increasingly-independent field to obtain specific skillsets and legal knowledge, closely related to but also separate from criminal investigations (ADJ-13), a field maintained by sworn peace officers/detectives.

Rationale: Riverside is a national hub for Chicanx art history. The Cheech Marin Center for Chicano Art and Culture at the Riverside Art Museum holds one of the largest collections of Chicanx art in all media and features worldclass exhibitions developed through local and international partnerships, including with the Smithsonian Institution. This course will set Riverside City College District apart from other schools in the state, as few other community colleges offer such a course (only Sierra and Santa Ana Colleges presently have such a class).

H **AHS 17** **Gender and Sexuality in Art** No sample assignments.
Rationale: Gender and sexuality have long been fields of study within the discipline of art history, especially with the developments in feminism, queer theory, and transgender studies. Additionally, California has been an epicenter for milestones in the LGBTQIA2+ Liberation and Pride Movements -- from the first permitted Pride Parade in 1970 to the emergent gay-borhood city districts of the Castro in San Francisco, West Hollywood and Silverlake in Los Angeles, and Hillcrest in San Diego. Across the state, artist communities thrive, including in the Inland Empire. Riverside City College is also a hub for queer and trans students, who find a safe space with faculty, classified professionals, and administrators in the LGBTQIA2+ Association for Student Success and Equity (LASSE), the Rainbow Engagement Center (REC Room), and Rainbow Learning Community (RLC). This course would join an already robust art history curriculum, together with courses in gender and sexuality in a variety of other fields of student on campus and across the District.

H **AHS 18** **Art History of the Cinematic Image** No sample assignments.
Rationale: Art History of the Cinematic Image will compliment our current Art History of the Photographic Image class, and will provide our students with an additional, approachable way to learn about visual culture and images through a popular medium format, like cinema. Norco College also an established student film club, and offering specific course work that appeals to these already interested students makes sense in terms of bolstering enrollment, increasing engagement, and meeting student needs.

H	AHS 20 Rationale: Mexican Art History As a Hispanic Serving Institution with a robust Puente Program, offering additional regionally/cultural specific classes on the arts, history, and culture of Mexico will positively impact our students. H	AHS 60 Rationale: Special Topics in Art & Visual Culture Art history and visual culture are constantly evolving; a rotating, special themed class enables faculty to continually craft the classroom experience and curriculum to foreground new critical perspectives, areas of research and scholarship, and emerging trends. A special themed class also provides a venue for faculty to share their own areas of particular expertise, research, and other professional talents with students. The content of the course is by design flexible; it will be selected and approved by the department. The direction of the course will be determined by current needs and interests of students and faculty. The organization of the course and material will vary from semester to semester, and instructor to instructor.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	List unlimited repeatability. H	CDL 801 Rationale: Commerical Driver Training-Permit Preparation Due to the change in the laws regarding how one can obtain a commercial drivers license, it is now required that all prospective commercial drivers take a formal class. In addition to the change in the laws, the U.S. experiences a shortage of qualified Commercial Truck Drivers every year. Currently, according to the U.S. Department of Labor Statistics, there will be a need for approximately 259,900 qualified, properly trained drivers to fill the anticipated need. H	ADJ	Corrections	<input type="checkbox"/> <input type="checkbox"/> <input checked="" type="checkbox"/>	Holding for courses.
	Rationale:	In reviewing our existing programming and offerings and the needs of the industry, a significant percentage of entry- and intermediate-level job opportunities within the corrections/community corrections field involve direct person-to-person work with juveniles involved in the justice system. H	ADJ	Crime Scene Investigation	<input type="checkbox"/> <input type="checkbox"/> <input checked="" type="checkbox"/>	Holding for courses.
	Rationale:	The proposed change to the CSI Certificate is due to a few factors prompting a restructuring within the discipline regarding class curriculums; ADJ-12, the Criminalistics course, has undergone a major modification this year to ensure the course is a forensic science course, focusing upon the scientific analysis completed within laboratories that focuses upon criminal evidence, while ADJ-13 has undergone a major modification this year as well to ensure the course focuses upon the criminal investigative processes and needs for the wide variety of criminal investigations that law enforcement officers undertake. These major modifications were possible because of the creation of ADJ-28, the new Crime Scene Investigations course, which focuses strictly upon the investigation of a crime scene and field-specific evidence collection and preservation.
