Action Items

1. Curriculum Proposals

Discussion Items and Public Comment

1. CCN Phase 2B Implementation Standing Item
 - a. Kelly Douglass – Believe we have leads identified for ANT, BIO and SOC. EAR and COMM are being launched.
 - b. Nick Sinigaglia – The recommendation now is to include all local content, even if redundant, for articulation?
 - i. Kelly Douglass – Yes. That being said, the State has also come out with recent regulation regarding CCN and the articulation process.

2. TOP/CIP Update – Standing Item
 - a. Casandra Greene – We have 24 disciplines we are waiting on out of 102. On Friday, we will send a reminder to any discipline that has not communicated with us.

3. Update on Curriquet Boxes for 55001 Compliance – Kelly Douglass
 - a. Kelly Douglass – When will the new fields be available in Curriquet?
 - i. Bryan Medina – We will submit the request to Curriquet after the launch deadline to not overlap with the current submission cycle. The fields will be added as non-required fields until the end of the fall term, at which point we will submit a request to have them required beginning spring 2027.

4. Activity course information for colleges May 12 – Kelly Douglass
 - a. Kelly Douglass – Would like to meet with any faculty who might be interested in pursuing an activity course. Provided a PowerPoint that reviews the activity category based on information out of the PCAH along with possible pros and cons of pursuing activity courses within the District. The faculty load generated by activity courses would need to be negotiated by the Faculty Association.
 - b. Kelly Douglass – At the curriculum committee meetings next week, would the chairs please provide an overview and ask if there are any faculty who would be interested in learning more?
 - c. Steven Schmidt – Is one of the cons regarding articulation impacts?
 - i. Kelly Douglass – Will add it to the slides.
 - d. Nick Sinigaglia – Could we have a sample class with hours?
 - i. Kelly Douglass – Yes, but would not like to include any load math as it needs to be negotiated.
 - e. Brian Johnson – If we pursue Activity, we could potentially have LEC/ACT, LAB/ACT, only ACT, or a course with all three?
 - i. Kelly Douglass – Yes. It would be a question of what the instructional style and function of the class is. Activity allows for in-class hands on learning and the assignment of homework.
 - ii. Casandra Greene – In DAN, for example, it would allow for rehearsal in class, as well as practice outside of class.
 - f. Brian Johnson – Are Kinesiology courses currently LAB?
 - i. Kelly Douglass – Yes, but this likely wouldn't apply to varsity courses.
 - g. Kelly Douglass – Will send materials later this week.
 - h. Nick Sinigaglia – If we adopt this tool, there's no worry that we'll be obligated to use it elsewhere in our curriculum where we don't want or need it?
 - i. Kelly Douglass – FA and Curriculum Committees would have to work to craft a definition to go into the contract, and that could be where we look at the disciplines where it's appropriate to be used based on the fields where it is a clearly established norm to use an activity course. We would never impose it. LEC/LAB combos have served the institution for all these years and faculty are the subject matter experts for their courses who would ultimately decide.

5. Open Forum
 - a. Brian Johnson – CIS would like to exclude CIS-200 from their inventory at Norco, however, we have a data science program and MATH faculty would like to know if a MATH-200 can be created and added to it. Also, what is the process for creating a data science discipline?
 - i. Casandra Greene – One concern might be whether there are enough students to fill the course.

- ii. Kelly Douglass – Would CIS agree to have MATH-200 added to the certificate?
 - iii. Brian Johnson – The certificate is handled more so by MATH. Is work experience for non-CTE programs possible?
 - iv. Bryan Medina – Yes, there is a non-CTE work experience CIP code that the State has provided guidance on.
 - v. Brian Johnson – There is no data science minimum qualification.
 - 1. Bryan Medina – Correct. They proposal for a data science discipline would need to use an existing discipline from the minimum qualifications handbook, or interdisciplinary studies.
 - b. Brian Johnson – Is MATH able to have a non-credit support course?
 - i. Bryan Medina – MATH-801 through 804 already exist and are in the Moreno Valley and RCC inventories. Non-credit support courses must be basic skills courses to be non-credit, and they must have a corequisite to a credit math course.
6. Public Comment for all items on or not otherwise on the agenda.
- a. None.

Adjournment: 3:44pm
