Title 5 Section 54630

Challenging Content

Any student may file a written request with the campus Chief Student Services Officer (CSSO) to correct or remove information recorded in his or her student records that the student alleges to be: (1) inaccurate; (2) an unsubstantiated personal conclusion or inference; (3) a conclusion or inference outside of the observer's area of competence; or (4) not based on the personal observation of a named person with the time and place of the observation noted.

Within 30 days of receipt of the request, the campus CSSO shall meet with the student and the employee who recorded the information in question, if any, if the employee is presently employed by the District. The campus CSSO shall then sustain or deny the allegations.

If the campus CSSO sustains any or all of the allegations, he or she shall order the correction or removal and destruction of the information. If the Chief Admissions and Records Officer denies any or all of the allegations and refuses to order the correction or removal of the information, the student, within 30 days of the refusal, may appeal the decision in writing to the College President.

Within 30 days of receipt of an appeal, the Board of Trustees shall, in closed session with the student and the employee who recorded the information in question, determine whether to sustain or deny the allegations. If the Board of Trustees sustains any or all of the allegations, it shall order the Chancellor or his or her designee, to immediately correct or remove and destroy the information. The decision of the Board of Trustees shall be final.

If the final decision is unfavorable to the student, the student shall have the right to submit a written statement of his or her objections to the information. This statement shall become a part of the student's record until the information objected to is corrected or removed.

Whenever there is included in any student record information concerning any disciplinary action, the student shall be allowed to include in such record a written statement or response concerning the disciplinary action.

Whenever there is included in any student record information concerning any disciplinary action in connection with any alleged sexual assault or physical abuse, or threat of sexual assault, or any conduct that threatens the health and safety of the alleged victim, the alleged victim of that sexual assault or physical abuse shall be informed within three days of the results of the disciplinary action and the results of any appeal. The alleged victim shall keep the results of that disciplinary action and appeal confidential.

Access Log

A log or record shall be maintained for each student's record that lists all persons, agencies, or organizations requesting or receiving information from the record and their legitimate interests. The listing need not include any of the following:

- Students seeking access to their own records;
- Parties to whom directory information is released;
- Parties for whom written consent has been executed by the student;
- Officials or employees having a legitimate educational interest.

The log or record shall be open to inspection only by the student and the campus CSSO, or designee, the Comptroller General of the United States, the Secretary of Education, an administrative head of an education agency, or state educational authorities as a means of auditing the operation of the system.

Security of Student Records

The District has measures in place, in the way of a firewall and an intrusion detection system to detect and prevent individuals from the outside from hacking into the District's computer system and accessing student records. As to employees of the District, access to student records is limited only to those employees whose job it is to set up student files and/or update or add information to those files. A limited number of administrators have access to student records as well.

Office of Primary Responsibility: Chief Student Services Officer

Administrative Approval: December 8, 2008
