

**BP 5900 PREVENTION OF IDENTITY THEFT IN STUDENT
FINANCIAL TRANSACTIONS**

Reference:

Fair and Accurate Credit Transactions Act, (15 U.S.C. 1681 m[3])

The District is required to provide for the identification, detection, and response to patterns, practices, or specific activities (“Red Flags”) that could indicate identity theft of students’ financial transactions when the District serves as a creditor in relation to its students. When applicable, the Chancellor is directed to develop procedures to implement an Identity Theft Prevention Program (ITPP) to control reasonably foreseeable risks to students from identity theft.

Date Adopted: May 19, 2009

Revised: May 17, 2011

**AP 5900 PREVENTION OF IDENTITY THEFT IN STUDENT
FINANCIAL TRANSACTIONS**

Reference:

Fair and Accurate Credit Transactions Act (15 U.S.C. 1681m[e])

I. The Purpose of the Identity Theft Prevention Program

The purpose of this Identity Theft Prevention Program (ITPP) is to control reasonably foreseeable risks to students from identity theft, by providing for the identification, detection, and response to patterns, practices, or specific activities (“Red Flags”) that could indicate identity theft.

II. Definitions

“Identity theft” is a fraud attempted or committed using identifying information of another person without authority.

A “creditor” includes government entities who defer payment for goods (for example, payment plans for bookstore accounts, or parking tickets), issued loans or issued student debit cards. Government entities that defer payment for services provided are not considered creditors for purposes of this ITPP.

“Deferring payments” refers to postponing payments to a future date and/or installment payments on fines or costs.

A “covered account” includes one that involves multiple payments or transactions.

“Person” means any individual who is receiving goods, receives a loan, and/or is issued a debit card from the District and is making payments on a deferred basis for said goods, loan and/or debit card.

Detection or discovery of a “Red Flag” indicates the need to take action under this ITPP to help prevent, detect, and correct identity theft.

III. Detecting “Red Flags” For Potential Identity Theft

A. Risk Factors for Identifying “Red Flags”

The District will consider the following factors in identifying relevant “Red Flags”:

- (1) the types of covered accounts the District offers or maintains;
- (2) the methods the District provides to open the District’s covered accounts;
- (3) the methods the District provides to access the District’s covered accounts; and
- (4) the District’s previous experience(s) with identity theft.

B. Sources of “Red Flags”

The District will continue to incorporate relevant “Red Flags” into this ITPP from the following sources:

- (1) incidents of identity theft that the District has experienced;
- (2) methods of identity theft that the District identifies that reflects changes in identity theft risks; and
- (3) guidance from the District’s management who identify changes in identity theft risks.

C. Categories of “Red Flags”

The following Red Flags have been identified for the District’s covered accounts:

Alerts, Notifications, or Warnings from a Consumer Reporting Agency:

- (1) A fraud or active duty alert is included with a consumer report the District receives as part of a background check.
- (2) A consumer reporting agency provides a notice of credit freeze in response to a request for a consumer report.
- (3) A consumer reporting agency provides a notice of address discrepancy. An address discrepancy occurs when an address provided by a student substantially differs from the one the credit reporting agency has on file. See Section (V)(9) for specific steps that must be taken to address this situation.
- (4) A consumer report indicates a pattern of activity that is inconsistent with the history and usual pattern of activity of an applicant, such as:
 - (a) A recent and significant increase in the volume of inquiries;
 - (b) An unusual number of recently established credit relationships;
 - (c) A material change in the use of credit, especially with respect to recently established credit relationships; or
 - (d) An account that was closed for cause or identified for abuse of account privileges by a creditor or financial institution.

Suspicious Documents:

- (5) Documents provided for identification appear to have been forged or altered.
- (6) The photograph or physical description on the identification is not consistent with the appearance of the applicant or customer presenting the identification.
- (7) Other information on the identification is not consistent with information provided by the person opening a new covered account or customer presenting the identification.
- (8) Other information on the identification is not consistent with readily accessible information that is on file with the District, such as a signature card or a recent check.
- (9) An application appears to have been altered or forged, or gives the appearance of having been destroyed or reassembled.

Suspicious Personal Identifying Information:

- (10) Personal identifying information provided is inconsistent when compared against external information sources used by the District. For example:
 - (a) The address does not match any address in the consumer report; or
 - (b) The Social Security Number (SSN) has not been issued, or is listed on the Social Security Administration's Death Master File.
- (11) Personal identifying information provided by a person is not consistent with other personal identifying information provided by the person. For example, there is a lack of correlation between the SSN range and date of birth.
- (12) Personal identifying information is associated with known fraudulent activity as indicated by internal or third-party sources use by the District. For example:
 - (a) The address on an application is the same as the address provided on a fraudulent application;
 - (b) The phone number on an application is the same as the phone number provided on a fraudulent application;
- (13) Personal identifying information provided is of a type commonly associated with fraudulent activity as indicated by internal or third-party sources used by the District. For example:
 - (a) The address on an application is fictitious, a mail drop, or a prison; or
 - (b) The phone number is invalid, or is associated with a pager or answering service.

- (14) The SSN provided is the same as that submitted by other persons currently being served by the District.
- (15) The address or telephone number provided is the same or similar to the address or telephone number submitted by an unusually large number of other persons being served by the District.
- (16) The person opening the covered account fails to provide all required personal identifying information on an application or in response to notification that the application is incomplete.
- (17) Personal identifying information provided is not consistent with personal identifying information that is on file with the District.
- (18) The person opening the covered account cannot provide authenticating information beyond that which generally would be available from a wallet or consumer report.

Unusual Use Of – Or Suspicious Activity Relating To – A Covered Account:

- (19) A new covered account is used in a manner that is commonly associated with known patterns of fraud patterns. For example, a person makes a first payment, but there are no subsequent payments made.
- (20) A covered account is used in a manner that is not consistent with established patterns of activity on the account. For example, there is:
 - (a) Nonpayment when there is no history of late or missed payments; or
 - (b) A material change in electronic fund transfer patterns in connection with a payment.
- (21) A covered account that has been inactive for a reasonably lengthy period of time is suddenly used or active.
- (22) Mail sent to the person holding the covered account is returned repeatedly as “undeliverable”, although transactions continue to be conducted in connection with the person’s covered account.
- (23) The District is notified that the person is not receiving paper account statements.
- (24) The District is notified of unauthorized transactions in connection with a person’s covered account.

Notices from Customers/Persons, Victims of Identity Theft, Law Enforcement Authorities, or Other Businesses About Possible Identity Theft in Connection with Covered Accounts:

- (25) The District is notified by a person with a covered account, a victim of identity theft, a law enforcement authority, or any other person, that the District has opened a fraudulent account for a person engaged in identity theft.

IV. Measures to Detect “Red Flags”

The District shall do the following to aid in the detection of “Red Flags:”

- (1) When a student requests a student identification card, the student is required, to show proof of identification by providing, in person, a valid picture identification, such as a valid California driver’s license or identification card, military identification card or some other form of picture identification.
- (2) Any time a student requests a name change, the student will be required to make that change in person and show proof of that change with proper identification.
- (3) The District shall continually monitor the firewall to determine if there are consistent attempts to break into the system or particular accounts.
- (4) As technology changes and advances take place in the District’s on-line application process, the District will make every effort to add other measures to aid in detecting “Red Flags”.

V. Preventing and Mitigating Identity Theft

One or more of the following measures, as deemed appropriate under the particular circumstances, shall be implemented to respond to “Red Flags” that are detected:

- (1) Monitor any accounts that have been identified in IV. (3);
- (2) Contact the person who holds the covered account;
- (3) Request that the person holding the covered account change any passwords, security codes, or other security devices that permit access to a covered account;
- (4) Reopen the covered account with a new account number;
- (5) Not open a new covered account for the person;
- (6) Close an existing covered account;
- (7) Not attempt to collect on a covered account or not sell a covered account to a debt collector;
- (8) Notifying law enforcement;
- (9) Where a consumer reporting agency provides an address for a consumer that substantially differs from the address that the consumer provided, the District shall take the necessary steps to form a reasonable belief that the District knows the identity of the person for whom the District obtained a credit report, and reconcile the address of the consumer with the credit reporting agency, if the District establishes a continuing relationship with the consumer, and regularly, and in the course of business, provides information to the credit reporting agency; or
- (10) Determine that no response is warranted under the particular circumstances.

VI. Updating the ITPP

The District shall update this ITPP on an annual basis to reflect changes in risks to persons with covered accounts, and/or to reflect changes in risks to the safety and soundness of the District from identity theft, based on the following factors:

- (1) The experiences of the District with identity theft;
- (2) Changes in methods of identity theft;
- (3) Changes in methods to detect, prevent and mitigate identity theft;
- (4) Changes in the types of covered accounts that the District maintains;
- (5) Changes in the business arrangements of the District, including service provider arrangements.

VII. Methods for Administering the ITPP

A. Oversight of the ITPP

Oversight by the District's ITPP Committee, which may include representatives from Admission and Records, Financial Services, the Controller, Information Services, Student Services and Legal department, shall include:

- (1) Assigning specific responsibility for the ITPP's implementation;
- (2) Reviewing reports prepared by the staff regarding compliance of the ITPP; and
- (3) Approving material changes to the ITPP as necessary to address changing identity theft risks.

B. Reports

- (1) In General. Staff responsible for the development, implementation, and administration of this ITPP shall report to the Governing Board on an annual basis.
- (2) Contents of Report. The report shall address material matters to the ITPP and evaluate the following issues: the effectiveness of the policies and procedures in addressing the risk of identity theft in connection with opening new covered accounts and with respect to existing covered accounts; service provider arrangements; significant incidents involving identity theft and management's response; and recommendations for material changes to the ITPP.
- (3) Oversight of Service Provider Arrangements. At present, the District does not utilize the services of any service providers to perform any of the tasks outlined in this Procedure; however, if the need arises to use an outside service provider, the District will do the following:
 - (a) Whenever the District engages a service provider to perform an activity in connection with one or more covered accounts the District shall take steps to ensure that the activity of the service provider is

conducted in accordance with reasonable policies and procedures designed to detect, prevent, and mitigate the risk of identity theft. To that end, the District shall require our service contractors, by contract, to have policies and procedures to detect relevant “Red Flags” that may arise in the performance of the service provider’s activities, and either report the “Red Flags” to the District, or take appropriate steps to prevent or mitigate identity theft.
