Course Deletion	Moreno Valley	BIT	20	Introduction to Biotechnology	The expansion of molecular biology has revolutionized modern medicine by creating new diagnostic tools for prevention and profiling of diseases, as well as the development of personalized therapies. There is a growing need for the entry-level lab technicians who would be able to prepare specimens for examination and operate semi-automated equipment. The Medical Biotechnology Program is intended for students interested in further studies or for entry-level biotechnical positions. The graduates will find employment in public health facilities such as hospitals, clinical laboratories, forensic science, environmental science laboratories, and private biotechnological corporations. Distance Education		ART	4DE	Introduction to Visual Culture	<p>Under the recommendation of the Vice-President of Academic Affairs at RCC, the Art Department is looking to expand our art history course offerings online. Currently, our total department offerings are 5% and with only one class approved for DE. We wish to attract more students to art history and a more diverse population that cannot attend traditional face to face classes. This, in turn, is also a feasible way of us to grow our art offerings, especially with our change to Canvas and access to California's CC best practices. We can increase our class offerings and art history audience without increasing our classroom "footprint."</p> <p>To increase the Art Department's offerings online and to make them more accessible to students while at the same time increase our participation in the CCC Online Education Initiative that offers best practices in online education. As the OEI suggests, significantly more numbers of students are able to access college-level classes when offered online. Art 4, in particular, lends itself to online classes as much of the material involves looking images and visual texts that are easily available on the internet.</p> <p>Additionally, this will allow us to create more accessibility and meet student's needs for IGETC.</p>	FALSE		Approved
