IMPROVEMENT PLANS (NOW WHAT)

*SEE TEAL HANDOUT #2

One objective of completing a self evaluation report is to identify areas of improvement for the College.

An improvement plan does not (necessarily) mean that the College does not meet the Standard.

MVC has identified six areas that it aims to improve.

I. DISAGGREGATION OF DATA BY DELIVERY MODE (STANDARD I.B.5)

- **WHAT:** Include disaggregated data by method of delivery (fully online, hybrid, and face-to-face) in program review dashboards for enrollment, success, retention, and completion metrics
- **WHEN:** Available for the fall 2020 program review cycle
- **WHO:** Office of Institutional Effectiveness and the Dean of Institutional Effectiveness

2. REGULAR EVALUATION OF COLLEGE POLICIES AND PRACTICES (STANDARD I.B.7)

- **WHAT:** Identify all additional practices, policies, and processes to include in a regular cycle, the methodology for assessing these practices, and the timeline for the ongoing cycle of assessment
- **WHEN:** By spring of 2020 including assessment of these practices during the same term in order to be able to make any indicated changes by the 2021 academic year
- **WHO:** The Office of Institutional Effectiveness, the Dean of Institutional Effectiveness, Strategic Planning Council Standard I Subcommittee, and governance and operational committees associated with each process or practice

3. COMMUNICATION AND DOCUMENTATION OF ASSESSMENT AND EVALUATION ACTIVITIES (STANDARD I.B.8)

- **WHAT:** Document existing processes that are evaluated, broadcast any changes as a result of these activities, and develop a communication plan for informing the campus community about the results of assessment and evaluation activities
- **WHEN:** Begin planning by the spring of 2020 and execute the plan beginning fall 2020
- **WHO:** The Vice President of Academic Affairs, Vice President of Student Services, Vice President of Business Services, and leadership of relevant governance committees (Curriculum Committee, Strategic Planning Council Standard I Sub-Committee, and Assessment Committee)

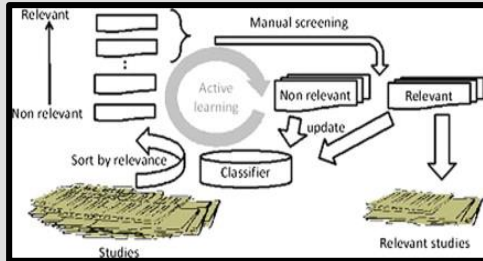

4. CREATE AN OVERARCHING PROFESSIONAL DEVELOPMENT STRUCTURE AT MVC (STANDARD III.A.14)

- **WHAT:** Create a coordinated college-wide professional development structure and plan to inform the campus community about common professional development goals along with unique opportunities for each constituent group
- **WHEN:** Complete analysis of PD efforts by fall 2020
- **WHO:** Professional Development Committee leadership, Deans of Instruction and Student Services, campus CSEA leadership, Vice President of Academic Affairs, Vice President of Student Services, and representatives from student leadership

5. UPDATING OF THE COLLEGE LEADERSHIP AND GOVERNANCE HANDBOOK (STANDARD IV.A.6)

- **WHAT:** Update the Leadership and Governance Handbook to include the governance approval routing of existing plans, processes, and policies as well as creating a process for the approval routing of new items
- **WHEN:** Complete by Fall 2020
- **WHO:** Standard IV Subcommittee, the Strategic Planning Council, and the Academic Senate

6. ADOPT A REGULAR AND SYSTEMATIC REVIEW OF COLLEGE GOVERNANCE (STANDARD IV.A.7)

- **WHAT:** Create a timeline and cycle for regular assessment and evaluation of college governance committees, structures, and decision-making processes
- **WHEN:** Complete by Spring 2020
- **WHO:** The Strategic Planning Council and the Standard IV Subcommittee
