The Riverside Community College District authorizes the enrollment of eligible minor students whom the Board of Trustees determines would benefit from collegiate educational course work. It is the intent of the Board of Trustees to consider the enrollment of eligible minor students in compliance with the District priority admission mandates and in the District's fulfillment of its educational mission. Further, the Board of Trustees may authorize the acceptance of eligible minor students, when the collegiate educational course work being requested provides course work otherwise not available to the minor student, when the enrollment of the minor student in college course work is not in conflict or in lieu of the compulsory school attendance laws of the state, and when the exceptions to allow enrollment of minors is consistent with the philosophy and mission of the District.

SCHOOL AND OTHER YOUNG STUDENTS**

Education Code Sections 46100, et seq., 48800, 48800.5, and 76000, et seq.

The District authorizes the admission of eligible minor students without high school diplomas, who are capable of profiting from instruction offered.

Authority to restrict the admission of a special part-time or full-time student in any session based on age, grade-level completion, current school performance or assessment and placement procedures in conformance with matriculation regulations, remains the prerogative of the District.

All special part-time and full-time students are assigned a low enrollment priority in order to ensure that they do not displace regularly admitted students.

Approved high school students may take up to 8 units for Fall/Spring terms and 5 units for Winter/Summer terms. High school students are not allowed to take physical education classes. Students may appeal to take the maximum number of units allowed under the Education Code for Fall/Spring terms (11) by going through the campus office of Matriculation.

Courses in which high school and other young students are permitted to enroll will be open to the entire District population and will be taught with the rigor appropriate to college-level courses in accordance with the approved course outline.

If a request for special part-time or full-time enrollment is denied for a pupil who has been identified as highly gifted, the Board of Trustees shall provide written findings and reasons for the denial within 60 days. A recommendation regarding the request for admission and the denial shall be submitted to the Board of Trustees at a regularly scheduled meeting that falls at least 30 days after the request for admission has been submitted.

If the decision to offer a class on a high school campus is made after publication of the District's regular schedule of classes and the class is only advertised to the general public through electronic media, the class must be advertised for a minimum of 30 continuous days prior to the first meeting of the class.

If the class is offered on a high school campus, the class may not be held during the time the campus is closed to the general public, as defined by the school board.
